I am a high school student at Arroyo Grande High School. I have had concerns about Diablo Canyon for many years, even before the 9/11 attacks. Now my fears have been even more amplified. I urge you to make a decision towards the phasing out of nuclear power. I would like to remind you that there are far better, ~~and~~ safer, and more efficient means of creating electricity. I am referring to solar, wind, and other natural solutions.

Signed:

Jordan Ek
