

April 1, 2003

Mr. William T. O'Connor, Jr.
Vice President - Nuclear Generation
Detroit Edison Company
6400 North Dixie Highway
Newport, MI 48166

SUBJECT: FERMI 2 - CORRECTION TO AMENDMENT NO. 153 REGARDING A ONE-TIME
DEFERRAL OF THE PRIMARY CONTAINMENT INTEGRATED LEAK RATE
TEST (TAC NO. MB5171)

Dear Mr. O'Connor:

On March 27, 2003, the Commission issued Amendment No. 153 to Facility Operating License No. NPF-43 for Fermi 2 to change the Technical Specifications (TSs) in response to your application dated May 23, 2002, as supplemented December 20, 2002, and February 27, 2003. The changes revised the TSs to allow a one-time deferral of the Type A primary containment integrated leak rate test.

The purpose of this letter is to correct three typographical errors on TS Page 5.0-18, which was issued in Amendment No. 153. In TS 5.5.12.a., the phrase "Rev. O" should have been "Rev. 0," and the word "test" should have been inserted after the words "Type A." Additionally, in TS 5.5.12.d.1.(ii), the word "te" is misspelled (it should have been "the"). Enclosed is corrected TS Page 5.0-18, which reflects these corrections.

This correction letter is consistent with the licensee's May 23, 2002, application and the NRC staff's intent. Please replace TS Page 5.0-18 that was issued with Amendment No. 153 with the enclosed corrected page.

Sincerely,

/RA/

John F. Stang, Senior Project Manager, Section 1
Project Directorate III
Division of Licensing Project Management
Office of Nuclear Reactor Regulation

Docket No. 50-341
