Jon,

A few more questions have come up regarding your application:

1. What is directly above the brachytherapy storage location?
2. I believe that you told me that you were sending your survey instruments out to a qualified vendor. Can you please confirm this?
3. The source model numbers that you gave can be found in the SS& D sheets, but under MediPhysics rather than Amersham. Are these the same or not?

Thanks for your help.  
Richard McKinley
