Subject: Lockheed Martin General License Issue

Region II received a letter dated 3/24/03 from Lockheed Martin's Orlando, Florida office regarding several issues relating to a recent inspection by the Florida Department of Health of their facility. One of the issues involved a conversation that occurred between Mr. William St. Armour of Lockheed Martin and yourself a couple of years ago (~8/2000). I called Mr. St. Armour (407-356-1964) to followup on the matters in his letter to us and during that conversation he discussed this conversation held between the two of you as noted on page 3 of his letter. Based on that conversation, I recommended that he get with you on this matter since you are more familiar with such issues related to import/export. The letter that he sent to us can be found in ADAMS (ML030870458). If you have any questions regarding this please feel free to contact me. Thanks.
