Gentlemen:

Subject: Safeguards Plan, Revision 42
Cooper Nuclear Station, NRC Docket 50-298, DPR-46

The purpose of this letter is to transmit Revision 42 to the Cooper Nuclear Station Safeguards Plan in accordance with the provisions of 10 CFR 50.54(p). Attachment A provides a summary of the changes included in Revision 42, none of which represent a reduction of effectiveness. The enclosed material does not contain Safeguards Information.

If you have any questions regarding this submittal, please contact Paul Fleming at 402-825-2774.

Sincerely,

Michael T. Coyle
Site Vice President

SAFEGUARDS PLAN

REVISION 42

February 17, 2003

CHAPTER 1

SECURITY ORGANIZATION

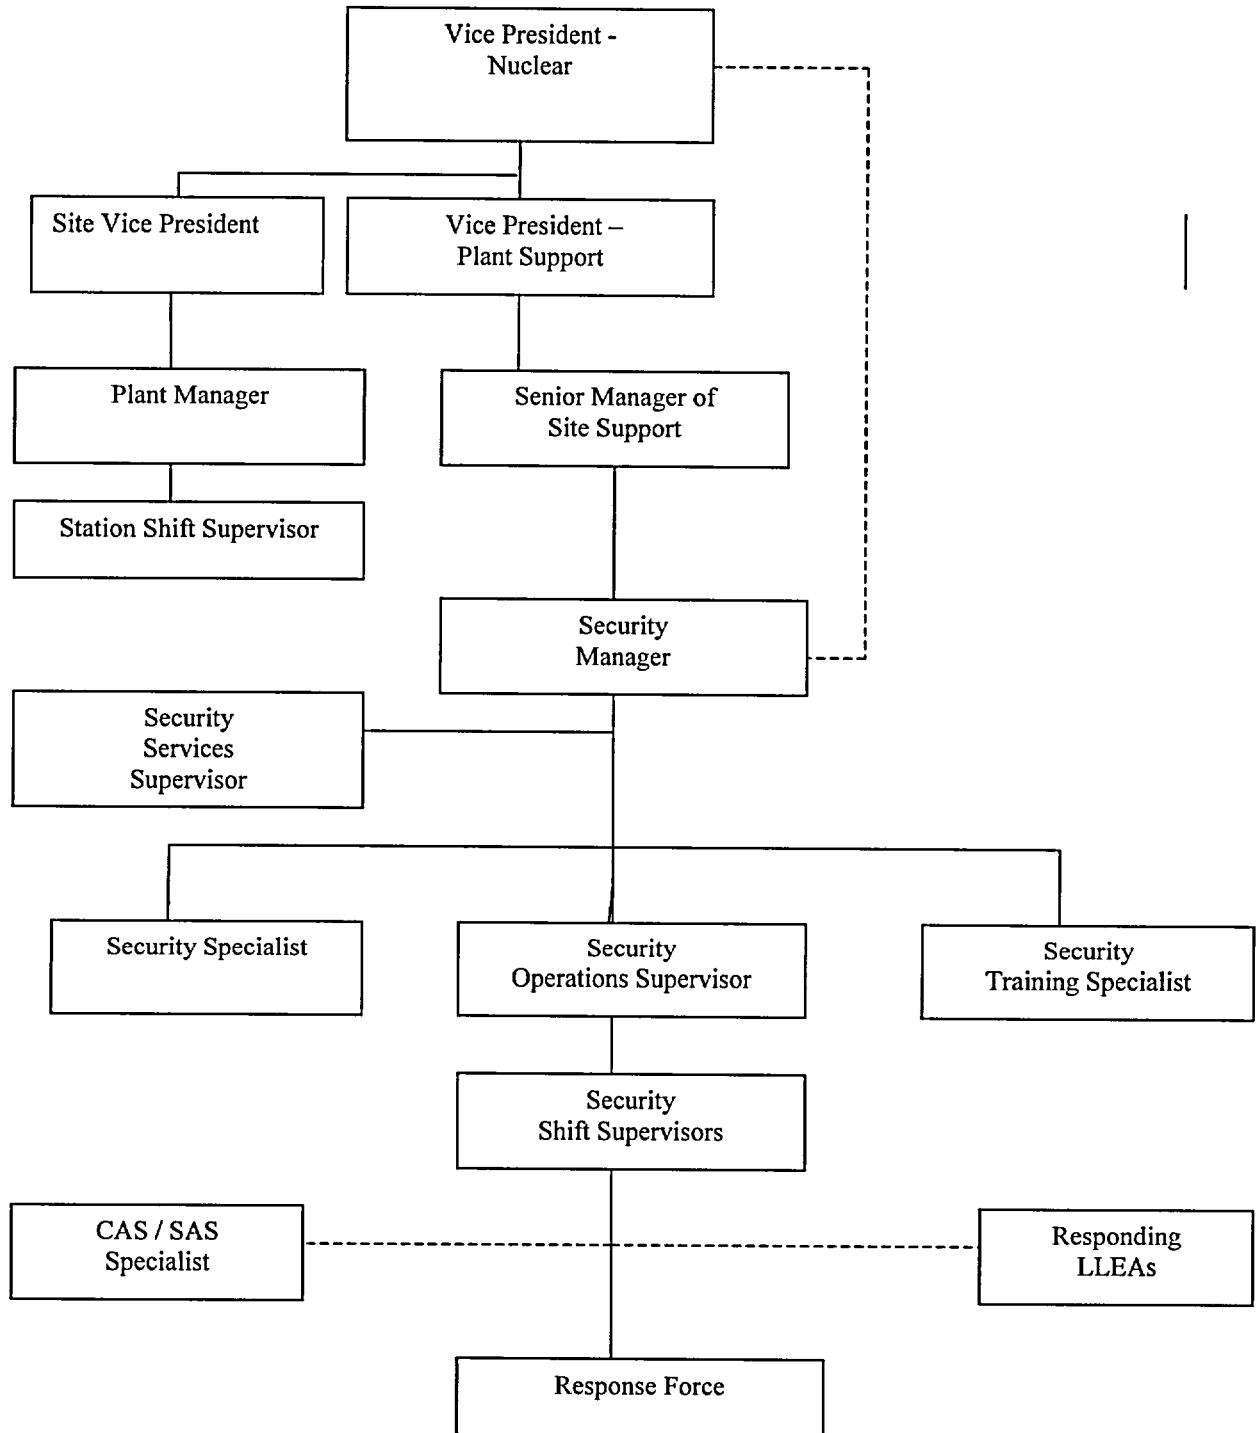

1.1 Security Organization

1.1.1 Organization

The Senior Manager of Site Support, who reports to the VP-Plant Support, has overall responsibility for managing the security force and administering the Safeguards Plan. Outside of normal working hours, the Station Shift Supervisor will normally assume these responsibilities (see Attachment "A"). Their responsibilities include the authority to suspend any or all portions of this plan during nuclear safety related emergencies; if the action is needed immediately to protect the health and safety of the public and no action consistent with license conditions and the technical specifications, that can provide adequate or equivalent protection, is immediately apparent. Suspension of safeguards measures must be reported in accordance with 10 CFR 73.71 unless a report has been made under 10 CFR 50.72. During periods when the Senior Manager of Site Support is unavailable, he may delegate his responsibilities, verbally or in writing, to a designee. If there are any changes made to vital area boundaries or the status of vital area doors or locks the Senior Manager of Site Support shall initiate a review of the Security Plan, Contingency Plan and procedures to ensure that the changes do not impact plant or personnel safety. An annual review of the Security Plan, Contingency Plan and procedures shall be conducted to evaluate their potential impact on plant and personnel safety.

The Security Manager, who reports directly to the Senior Manager of Site Support, and his staff are responsible for the daily operations of the security guard force and the implementation of the Safeguards Plan. A Security Shift Supervisor will be on duty directing all activities of the guard force shift on duty. A Security Shift Supervisor will not be assigned any routine tasks and therefore will always be available to direct the guard shift. He will also provide functional and administrative direction and coordinate security activities with the Station Shift Supervisor during non-normal working hours.

COOPER NUCLEAR STATION
SECURITY ORGANIZATIONAL CHART

ATTACHMENT 3 LIST OF REGULATORY COMMITMENTS

Correspondence Number: NLS2003033

The following table identifies those actions committed to by Nebraska Public Power District (NPPD) in this document. Any other actions discussed in the submittal represent intended or planned actions by NPPD. They are described for information only and are not regulatory commitments. Please notify the NL&S Manager at Cooper Nuclear Station of any questions regarding this document or any associated regulatory commitments.
