Dear Mr. Wetterhahn:

I am writing in response to your March 26, 2003, letter informing us of Westinghouse's intent to file a supplement to their December 20, 2002, response to the petition submitted to the U.S. Nuclear Regulatory Commission (NRC) by Viacom on October 29, 2002, pursuant to 10 CFR 2.206. In the letter, you state that the supplement will be submitted to the NRC by May 5, 2003. A May submission will not allow the NRC staff to respond to Westinghouse's petition in accordance with Management Directive 8.11, *Review Process for 10 CFR 2.206 Petitions*.

If Westinghouse still desires to submit supplemental information for consideration, we request that Westinghouse submit the supplemental information no later than April 18, 2003, in order that the schedule for issuing the proposed Director's Decision will not be impacted. Westinghouse will be provided with the proposed Director's Decision for review and comment prior to its issuance.

If you have any questions about this letter or the petition review process, please contact Derek Widmayer of my staff at (301) 415-6677.

Sincerely,

/RA/
