Dear Messrs Mullett and Polk:

It has been brought to my attention that you were inadvertently omitted from the service of a "Board Notification" from the NRC's Jefferson Proving Ground Project Manager to the Atomic Safety and Licensing Board, dated March 11, 2003. The Board Notification transmits to the Board a letter from the Licensee to the NRC staff making a "contingent request for an alternative schedule for submittal of a Decommissioning Plan for the termination of the Jefferson Proving Ground (JPG) license SUB-1435." We apologize for the omission and will put you on all service lists related to the JPG proceeding.

Please call me at (301) 415-1684, if you have any questions regarding what this Board Notification represents. I will likely need to bring Tom McLaughlin, the Project Manager, into such a call to adequately address your questions.

Sincerely,

*/RA/*

Counsel for NRC Staff
