<b>Subject:</b> Amendments		
<p><b>Summary:</b> Mr. Honerlah criticized why he needed more training to be the RSO. I explained the NUREG-1556 series training and he was still upset. He indicated that the Philadelphia office has hired a new person, Sharon Wilkinson, who will be the RSO. Ms. Wilkinson has taken a 40 hour training course, is scheduled to take a Troxler course, and Mr. Honerlah reviewed the fixed gauge information (how to take a leak test, where the gauge is located on the dredge, etc.) with her. I informed Mr. Honerlah that I would contact Ms. Wilkinson to move these amendments along.</p> <p>I left a message for Ms. Wilkinson that I would send a deficiency letter to her regarding the amendment requests and that I need a response by May 5, 2003.</p>		
<b>Action Required/Taken:</b> Send Deficiency letter with NUREG-1556 Volumes 1, 4, and 7.
