Mr. Adam Scheinman, Director  
Office of Export Control Policy and Cooperation  
National Nuclear Security Administration  
U.S. Department of Energy  
1000 Independence Avenue, S.W.  
Washington, DC 20585

Dear Mr. Scheinman:

Enclosed is an application for a license (XSOU8795), recently received by the U.S. Nuclear Regulatory Commission, for the export of 3,000,000.0 kilograms of natural uranium hexafluoride (UF<sub>6</sub>) for enrichment and ultimate use in nuclear power facilities in the EURATOM community. Assurances from EURATOM are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated.

Please note that because item number 9 of the application is marked business proprietary, it will not be placed in the NRC Public Document Room. This information should be given corresponding protection during the Executive Branch review.

Sincerely,

*/RA/*
