As a member of operating Engineers Local #12 and a resident of San Luis County I have lived and worked in this area for 30+ years I have worked at Diablo Canyon and was impressed by the way they conducted business, As we all know our natural resources are being depleted on a daily basis nuclear power is very important in our daily lives as the population expands in this area close attention needs to be paid to the power needs of this area for future generations please approve the dry waste storage to help the economy in this area move forward -

Signed: Dennis Williams
