Warrenville, IL 60555

SUBJECT: OYSTER CREEK NUCLEAR GENERATING STATION - LONG-RANGE
PLANNING PROGRAM, ANNUAL UPDATE OF INTEGRATED SCHEDULE
FOR 2002 (TAC NO. MB8213)

Dear Mr. Skolds:

By letter dated March 25, 2003, AmerGen Energy Company, LLC, provided its annual update (i.e., year 2002) of the integrated schedule of the Long Range Planning Program (LRPP). The LRPP was a requirement imposed by Amendment No. 122, dated May 27, 1988, as License Condition 2.C.(10) of the operating license. Details of the LRPP were delineated in a GPU (Oyster Creek's former owner and licensee) letter of March 16, 1988.

As specified by Section V.A of the LRPP, the licensee "will update Categories A, B, C semi-annually and submit the revised listing of projects and completion schedules to the NRC, beginning six months following NRC approval of this plan." Accordingly, the NRC staff acknowledges that submission of the March 25, 2003, letter fulfills Section V.A of the LRPP for the subject period.

License Condition 2.C.(10) specifies that the schedule for Category A items shall not be changed without prior approval from the NRC. The March 25, 2003, letter contains no new Category A items. The LRPP specifies that all Category A items were to have been completed by Refueling Outage 12, which occurred during 1991. Accordingly, AmerGen's March 25, 2003, letter does not report completion of any Category A item during the report period.

The NRC staff completed its review of AmerGen's March 25, 2003, letter, and found that it is in compliance with License Condition 2.C.(10) and the LRPP.

Sincerely,

/RA/

Peter S. Tam, Senior Project Manager, Section 1
Project Directorate I
Division of Licensing Project Management
