Re: Responses to "Request For Additional Information On The License Renewal Application For The Cabot Boyertown Facility, SMB-920 (L52461)" dated 14 January 2003. Docket No. 40-6940

Dear Elaine:

This letter and the attached documents are provided in response to your request for additional information (RAI) dated 14 January 2003. Weston Solutions, Inc. is making this submittal on behalf of Cabot Supermetals (CSM) in Boyertown, Pennsylvania to support renewal of NRC Source Material License SM-920. The attached documents supply the first batch of requested information and additional information will be forthcoming in a later submittal to complete the response from CSM.

This submittal includes two items; the proposed conditions for the license renewal, and the hydrology information provided by Environmental Standards, Inc. in response to your request numbers 5, 6, 7, and 25 on the RAI. There are six Adobe Acrobat files (one table and five figures) that accompany the hydrology information and are referenced in the text. Please contact me at (505) 837-6556 if you have any questions regarding this information.

Sincerely,
Weston Solutions, Inc.
