Jack,

As you requested, I am sending you a copy of the current version of the TIA response concurrence package and cc'ing Christine. Please remember to treat the attachments as **predecisional** until I can get the concurrences.

I think we have sent this before (about a month ago). It hasn't changed since then, but is in the process of being revised now, based on feed-back from RES and elsewhere. Changes are for clarity, tone and updated inputs. Basic content and conclusions will not change with the revision I am currently typing.

Attachment C mentioned in the cover letter is already in ADAMS, ML021340306.

Steve
