 Mike,

Are you sure the new time is a conflict with the SERP? The SERP is on the SPSBCAL for 2:15 to 3:50 (odd times!) and the 0350 Panel call is at 4:00 pm Eastern time. You had apparently moved it to 3:00 pm on the SPSBCAL, so I'm guessing you think it's an hour earlier than it is scheduled to be.

Steve

 Thanks. Time shift causes call to conflict with currently scheduled SERP. Steve and I a discussed. He will be there.
