Laura,

OK, please send me the time and I'll put it on Mike's calendar and mine.

Also, as soon as I know for sure that the briefing page has cleared Brian's office, I'll send it to you. (It got stuck there today and the EDO and Commission are looking for it. I just checked with Brian and he was stating to review and forward.)

✓ The panel would still like you and Mike to come to the 7/25 meeting even if there is no written material

Pal

Thanks

✓ I will tell the panel this afternoon and see what they say. If not 7/25 do you have any estimate of when you would be able to brief the panel with a written document?

I just put you on the agenda for the 7/25 0350 panel meeting to brief on the status of the risk assessment. The meeting will be at 2:30 eastern. The agenda will come out today or tomorrow. I think the panel is expecting some sort of write-up or notes. If you have those prior to the meeting and want to distribute to the 0350 e mail group - please send to Christine Lipa, since I will be out next week.

Pal

Thanks

Laura
