SUBJECT: REVISED SCHEDULE FOR ADDING THE NUHOMS® -24PHB
DRY CANISTER TO THE STANDARDIZED NUHOMS® SYSTEM
(TAC NO. L23370)

Dear Mr. Grenier:

By letter dated August 31, 2001, as supplemented, Transnuclear, Inc. (TN) submitted an application to amend Certificate of Compliance (CoC) No. 1004, for the Standardized NUHOMS® System. The application requested approval to add the NUHOMS® -24PHB dry storage canister (DSC) to the Standardized NUHOMS® System. The review schedule has been revised to reflect issuance of the preliminary CoC and Safety Evaluation Report (SER) on June 20, 2003.

The U.S. Nuclear Regulatory Commission staff may require your assistance to meet this revised schedule. In that event, it is expected that TN will respond promptly and completely to staff request during the preparation of the preliminary SER and CoC.

If you have any questions regarding this matter, please contact me at (301) 415-1396.

Sincerely,

/RA/
