Brian, I have cleared the concept of the NRC billing to this set of discussions. I will try to get a more formal message to you later this week. I'm on the road and tied up all day. But be assured, this arrangement is satisfactory to the B&WOG.  
Thanks, Jim

Subject: BAW-2374 meetings and discussions

Jim,

On March 13, 2003, B&WOG withdrew BAW-2374. On your visit of April 3, 2003, you requested that the staff meet and clarify their expectations for the resubmittal (BAW 2374, Revision 1), and that you would like to begin meeting with the staff as early as the first week in May. I have opened a fee-billable TAC to cover the discussions and meetings leading up to the resubmittal of BAW-2374 (TAC no. MB8187). I feel any time spent by the staff on these discussions should be billed to B&WOG in support of your resubmittal. We had our first staff discussion on Thursday the 10th of April in order to begin clarifying our expectations of your resubmittal - BAW 2374 Revision 1.

My goal is to streamline the staff's discussions, and prepare for your submittal. I understand that you are requesting the CFO's office for a refund. This is separate, however, if there is a problem with the new discussions and meetings being fee-billable, I need to know.

Please send a formal request via e-mail and mail to me, so that we can continue these discussions and meetings, otherwise I will have to end these meetings until BAW 2374, Revision 1 is submitted and docketed.

Thank you,  
Brian
