Interested Parties,

Attached is an e-mail I sent responding to Ian Jung in Events Assessment re: the status of the Pt. Beach red finding.

It contains a detailed summary of our exit meeting yesterday. You may not want to read all of it, but the bottom line is that there's 3 potential violations (corrective actions, procedures and App. R) and one unresolved item for operability. Both the NRC and licensee have preliminarily calculated the finding as red. We will both be sharpening our pencils and most likely have a regulatory conference on this issue sometime in the future.

Region III folks, I hope I didn't miss characterize anything said at the Exit.
