Subject: Re: Point Beach

THE SERP will be twofold - to assess the SDP for the current Special Inspection Team findings (we just exited yesterday) and to review the impact that these findings and overall Point Beach performance have on the NRC's decision to grant credit for old design - the Red is still red and not being re-SERPed

>>> Cynthia Carpenter 12/13/02 12:58PM >>> NRR
I'm not sure I understand. The SERP decided it was red and that is final. Is this to decide if an old design issue, or is the question whether it should be red?

>>> Geoffrey Grant 12/13/02 01:56PM >>> RIII
I'll give you a call next week (or call me if you haven't heard from me) - haven't set the date of the SERP yet - need data from licensee to form the risk picture

>>> Cynthia Carpenter 12/13/02 10:04AM >>> NRR
Geoff and Steve

Any feedback on the exit meeting with Point Beach and the discussion that the red issue may not be an old design issue? When will be the Re-SERP on this? thanks.
