January 23, 1995

NRC ADMINISTRATIVE LETTER 95-01: CHANGE IN COMMERCIAL TELEPHONE AND
FACSIMILE NUMBERS AT NUCLEAR REGULATORY
COMMISSION HEADQUARTERS

Addressees

All NRC licensees.

Purpose

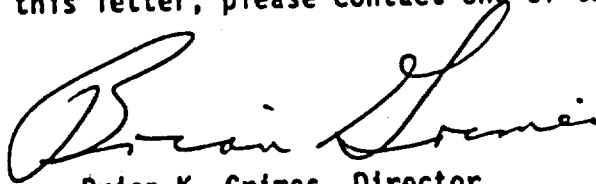

The U.S. Nuclear Regulatory Commission (NRC) is issuing this administrative letter to inform addressees that the commercial telephone and facsimile numbers for one of the two office buildings at NRC Headquarters are currently being changed. This administrative letter does not transmit or imply any new or changed requirements or staff positions. No specific action or written response is required.

Discussion

The NRC Headquarters staff is located in two office buildings in Rockville, Maryland. Each of the office buildings, One White Flint North and Two White Flint North, had its own unique telephone exchange prefix, 504 and 415 respectively. The telephone exchange prefix for One White Flint North is being changed so that all NRC Headquarters exchange prefixes will be 415. The area code (301) and last four suffix numbers will not be changed. The conversion is taking place over a three-month period and will be completed by March 1, 1995. As of mid-January, approximately 50 percent of the One White Flint changes are complete. The exchange prefix for Two White Flint North will not change and remains 415.

For 90 days after the conversion of each number, callers to the old number will get an intercept message informing them of the change and the new number.

This administrative letter requires no specific action or written response. If you have any questions about this letter, please contact one of the contacts listed below.
