A little guidance on attached:

Keep info to brief description of what we are doing or have done. Provide IP2 results but caution Ashok that this has not been discussed with Region yet as promised. Indicate three aspects of Davis Besse we are analyzing and providing review for NRR assesment. You can indicate area of potential disagreement as FYI to Ashok, but caution Ashok regarding preliminary state this work is in and subject to more discussion between NRR and RES.

Mike should review any info we plan to provide for "sensitivity".

Periodic Meeting Inputs-they come up monthly and here we are again

Please collect info from staff on

RG/SRP-ASME STD PRA Quality  
Last Weeks ACRS Meetings--HR and Fire Research  
Upcoming 50.46 Public Meeting  
Check with Pat B-IP2, Davis Besse, etc  
Check with Mark-I've probably missed something

Input is typically a paragraph or copy of something Ashok can use to support his verbal brief of Commissioner.

This is something we should be able to tackle better (get dates earlier from Shirley) so we don't go through quite as much crash and burn-think about it.
