

DOCKET NUMBER
PROPOSED RULE
PR 20
(68FR 09595)

DOCKETED
USNRC

29

From: <M.M.Giese@na.modine.com>
To: <secy@nrc.gov>
Date: Mon, Apr 21, 2003 1:36 PM
Subject: 68 FR 40: 9595-9602 / Stop Release of Radioactive Waste

April 21, 2003 (2:00PM)

OFFICE OF SECRETARY
RULEMAKINGS AND
ADJUDICATIONS STAFF

Mark M. Giese

1520 Bryn Mawr Ave.

Racine, WI 53403

m.mk@juno.com

Please do not allow nuclear power waste sent to local landfills as if it were normal trash.

The "solid materials" upon which NRC is focusing could be contaminated with plutonium-239, strontium-90, cobalt-60 or any radionuclide from nuclear power production.

The burden of calculating dose and determining where each waste goes is greatly reduced if the waste is simply treated as nuclear waste and not released at all. Keep all radioactive waste and any materials contaminated with radioactivity from the nuclear fuel chain regulated in specifically licensed facilities with the goal of isolating it from the environment and preventing human (and other species) exposure.

Do not allow radioactive concrete to be used nor allow it in the metal used for pipes, dental braces, intrauterine devices, belt buckles, frying pans and tableware. Nor allow it in soil be used for agricultural land or playground fill.

Also oppose radioactive asphalt be used for parking lots and bike paths.
