SUBJECT: Entergy Nuclear Operations, Inc.
Pilgrim Nuclear Power Station
Docket No. 50-293
License No. DPR-35

Supplement to Request for Amendment to Technical Specifications
Associated with Emergency Core Cooling System Requirements During
Shutdown Conditions

REFERENCES: Entergy letter, Request for Amendment to Technical Specifications
Emergency Core Cooling System Requirements During Shutdown
Conditions, dated January 23, 2003

LETTER NUMBER: 2.03.048

Dear Sir or Madam:

By the Reference, Entergy Nuclear Operations, Inc. (Entergy) proposed to amend the Pilgrim Station Operating License, DPR-35. Discussions with the NRC staff on April 15, 2003 identified that withdrawal of the proposed change to Note 1 of Technical Specification Table 3.2.B would facilitate review and approval of the requested change.

Therefore, Entergy withdraws the requested change to Note 1 of Technical Specification Table 3.2.B.

This change does not impact Entergy's conclusion in the Reference that the proposed amendment does not involve a significant hazards consideration.

Please contact Mr. Bryan Ford, Licensing Manager, at (508) 830-8403, if you have any questions or require additional information.

I declare under penalty of perjury that the foregoing is true and correct. Executed on this 17th day of April 2003.

Sincerely,

A handwritten signature in cursive script, appearing to read "M. Bellamy".

Robert M. Bellamy
