NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

AUG 20 1986

TO ALL POWER REACTOR LICENSEES AND APPLICANTS FOR AN OPERATING LICENSE

Gentlemen:

Subject: OPERATOR LICENSING EXAMINATIONS (Generic Letter 86-14)

To update the schedules you provided in response to Generic Letter 85-18, please provide the best estimate of your needs for operator licensing examinations for FY 1987, FY 1988, FY 1989, and FY 1990 (October 1 to September 30 of each year). In addition, please identify the dates for your scheduled requalification examinations and the anticipated number of examinations and dates for each licensing examination site visit. This information is needed to plan our resource requirements consistent with your operator licensing needs.

Because of continued budget limitations, we will attempt to limit examinations to two visits per site each year. To meet this goal the regional offices may be required to redistribute the requested facility operator examination visits across the entire fiscal year to even out the examination workload and eliminate high demand periods. Therefore, your submittal of this schedule does not guarantee the number or date of examinations requested. However, a best estimate of your needs for examinations will allow us to propose budget modifications, if necessary. Please keep us informed of significant changes in your estimates as they occur, so we can keep our data base current.

Your schedules, in the enclosed suggested formats, should be returned to Mr. Bruce Boger, Chief, Operator Licensing Branch, AR-5221, Washington, DC 20555, with a courtesy copy to the appropriate Regional Administrator by October 1, 1986. We appreciate your assistance. If you have any questions concerning this request or your response, please call Mr. Boger at (301) 492-4868.
