Dear Mr. Scheinman:

Enclosed is an application for a license (XSNM03305), recently received by the U.S. Nuclear Regulatory Commission, for the export of low-enriched uranium, in the form of broken uranium metal pieces for use in the Hanaro Research Reactor in South Korea. The material will first go to the Atomic Energy of Canada Limited (AECL), Chalk River Laboratories, where it will be fabricated into fuel. Assurances from Canada and from the Republic of Korea are required that the material will be subject to all of the terms and conditions of an agreement for cooperation. Your assistance in obtaining the necessary assurances will be appreciated.

Sincerely,
