**Subject: COLUMBIA GENERATING STATION, DOCKET NO. 50-397
REPORT OF COMPLIANCE WITH INTERIM COMPENSATORY
MEASURES FOR DRY INDEPENDENT SPENT FUEL STORAGE
INSTALLATIONS**

- References:**
- 1) Letter dated October 16, 2002, NRC to JV Parrish (Energy Northwest), "Issuance of Order for Interim Safeguards and Security Compensatory Measures for Columbia Generating Station"
 - 2) Letter GO2-02-179, dated November 4, 2002, JV Parrish (Energy Northwest) to NRC, "Response to Order for Interim Safeguards and Security Compensatory Measures for an Independent Spent Fuel Storage Installation"

Dear Sir or Madam:

Pursuant to 10 CFR 50.4 and Enclosure 1, Section III.C.2 of Reference 1, Energy Northwest is hereby reporting full compliance with the interim compensatory measures specified in Section C of Enclosure 3 to Reference 1 has been achieved at Columbia Generating Station (Columbia). These compensatory measures for Independent Spent Fuel Storage Installations (ISFSI) located within owner controlled areas have been implemented at Columbia in consideration of the guidance provided to the Commission by the Nuclear Energy Institute on October 18, 2002. Energy Northwest acknowledges that these prudent, interim measures are required to address the current threat environment that exists following the terrorist attacks of September 11, 2001 in a consistent manner throughout the nuclear ISFSI community. Energy Northwest also acknowledges that the requirements contained in the Order will remain in effect until notification from the Commission that a significant change in the threat environment has occurred, or until the Commission determines that other changes are needed.
