Subject: RE: C-133 source missing info

Dear Dr. Jankovich,

As per your request please find below the missing information.

1. The maximum activity of the C-133 source is 15000 Ci.
2. The correct license code for the users would be "S" for specific license.

If you have any questions or require further information please feel free to contact me by telephone at 613) 592-3400 extension 2421 or by email.

Sincerely
Marc-Andre

Subject: C-133 source missing info

Marc,

While updating your company's name and address for the Model C-133 source, Registration Certificate No. NR-0169-S-124-U, dated December 1, 1969, I noted that the following information was missing from the registration sheet:

1. maximum activity; and
2. the correct license code for users, i.e. the Registration Certificate lists "U" for unknown, but I assume it should be "S" for the user to have a specific license.

Some of these old registrations were created before the present day practice was developed and never have been updated since. Now we have a chance with the current revision to add the missing information. Please review the entire registration sheet, the one which is dated December 1, 1969, and let me know if anything else is missing or need to be corrected.

Thank you. You may reach me by e-mail or call me at 301 415-7904.
John Jankovich
