5 Requirement:

1. SP 1.43, Section 5.1 requires the identification and justification for commercial grade items to be delineated on a document suitable for attachment to the Purchase Requisition.
2. SP 1.43, Section 5.2.2 requires the requester's APM to "indicate approval and verification of the statements made by signing and dating the description document."

6 Adverse Condition:

1. Purchase Requisition #5602921 for commercial grade items does not have the justification attached as required.
2. Justifications for commercial grade items were attached to Purchase Requisitions #5544376 and #5591128. However, the justifications were not signed and dated by the APM.

7 Recommended Action(s):

1. Review affected Purchase Requisitions (in addition to the above) and provide justifications as required.
2. Provide procedural changes and/or training to prevent recurrence.

CORRECTIVE ACTION FOR DEFICIENT CONDITION NO. 1

~~A. EXTENT OF DEFICIENCY: N/A~~

~~B. ROOT CAUSE:~~

~~Purchase Requisition (PR) 5602921 was initially reviewed and deemed as QA:NA. However, after further discussion, it was revised to reflect commercial grade to be used in a quality affecting application. The requisition is still not approved, however, it is still in process with the Radiological Field Programs (RFP) group. The QA review of this requisition yielded a number of questions, including the justification for commercial grade use, which is still awaiting response and resolution.~~

~~C. REMEDIAL ACTION:~~

~~None. No real deficiency since the PR is in process. RFP is in the process of incorporating the resolution to QA comments into PR 5602921.~~

~~D. CORRECTIVE ACTION TO PREVENT RECURRENCE:~~

~~N/A; This requisition has never been approved to date.~~

CORRECTIVE ACTION FOR DEFICIENT CONDITION NO. 2

A. EXTENT OF DEFICIENCY: N/A

B. ROOT CAUSE:

Utilization of SP 1.43 was not adequately addressed by the implementing procurement procedure SP 1.28 to cross reference reviews for commercial grade justification.

C. REMEDIAL ACTION:

Justifications for commercial grade items specific to PRs 5544376 and 5591128 have been re-reviewed, signed and dated by the APM. In addition, all requisitions for quality affecting items and commercial grade items issued since the effective date of SP 1.43, 8-10-90, have been reviewed and the following actions have taken place:

PRs 5581035, 5591110, 5515997 and 5602931 will require the signed commercial grade justification attachment detailed in SP 1.43. These have been completed and filed with the PRs.

D. CORRECTIVE ACTION TO PREVENT RECURRENCE:

SP 1.43 has since been canceled as of 11/20/90 and the appropriate review requirements of commercial grade justification have been incorporated into SP 1.28. This assures that the justification for use of commercial grade items are a normal and regular part of the procurement process.
