SUBJECT: Decontrol of U.S. Nuclear Regulatory Commission (NRC) YMP
Controlled Documents

Reference: Letter, YMP: NAV-3463 to L.R. Hayes, YMP-USGS TPO from D.G.
Horton, Director, QA, YMPO

In response to the referenced correspondence, the U.S. NRC Headquarters has been removed from controlled distribution of YMP-US Geological Survey (USGS) controlled QA program documents. However, J.W. Gilray, the US NRC representative in Las Vegas, NV, will remain on distribution for the YMP-USGS Quality Assurance Program Plan.

Please either destroy, mark "uncontrolled," or return the controlled copy of the USGS-YMP Quality Assurance Program Plan-01, Revision 5 (QAPP-01, R5) which was issued to J. Kennedy in February, 1990.

Should you have any questions regarding this matter, please contact Lori Ulmer at (303) 279-7242.

Sincerely,

D.H. Appel
Quality Assurance Manager
