SUBJECT: PNEUMATIC PATHWAYS TECHNICAL EXCHANGE JULY 31, 1995

Dear Mr. Bradshaw:

Thank you for your letter of August 4, 1995. We felt that the July 31, 1995, technical exchange was a good opportunity for all the interested parties to come together and discuss openly their concerns with the collection of data relevant to the characterization of pneumatic pathways. We appreciated the detailed preparation and active participation demonstrated by Nye County's staff and contractors at the meeting. As I stated in my closing remarks, there appears to be a need for more interaction between the interested parties on this subject, particularly, in the area of gas chemistry sampling. The U.S. Nuclear Regulatory Commission staff is currently looking into the gas chemistry sampling program as it is being applied at Yucca Mountain. I anticipate that an interaction on gas chemistry sampling will be arranged in the near future. I look forward to continued productive interactions with you and your staff on this and other technical issues.

Sincerely,

John H. Austin, Chief
 Performance Assessment and
 Hydrology Branch
 Division of Waste Management
 Office of Nuclear Material Safety
 and Safeguards
