Re: Second Submittal in Response to "Request For Additional Information On The License Renewal Application For The Cabot Boyertown Facility, SMB-920 (L52461)" dated 14 January 2003. Docket No. 40-6940

Dear Elaine:

This letter and the attached documents are provided as the second part of a response to your request for additional information (RAI) dated 14 January 2003. Weston Solutions, Inc. is making this submittal on behalf of Cabot Supermetals (CSM) in Boyertown, Pennsylvania to support renewal of NRC Source Material License SM-920. The attached documents supply the second batch of requested information and additional information will be forthcoming in a later submittal to complete the response from CSM.

This submittal includes two items; the dose assessment for recycling landfill sludge as roadbase, and the dose assessment for disposing of landfill sludge in landfills. There are two Adobe Acrobat files, one for each dose assessment, and two zipfiles that contain the computer code results that can be read using the appropriate computer program. Please contact me at (505) 837-6556 if you have any questions regarding this information.

Sincerely,
Weston Solutions, Inc.
