Office of Quality Assurance

1.0 SCOPE

The purpose of this audit is to evaluate the Reynolds Electrical and Engineering Co., Inc. (REECO) Quality Assurance (QA) Program to determine whether it meets the requirements and commitments imposed by the Office of Civilian Radioactive Waste Management. This will be accomplished by verifying implementation and effectiveness of the program in place, as well as verifying compliance with requirements.

Discrepancies identified during previous Office Of Quality Assurance (OQA) audits and surveillances of REECO will be included in the scope of this audit to determine the effectiveness of REECO's corrective actions. The status of corrective action implementation concerning open Corrective Action Requests (CARs) will also be reviewed.

The programmatic elements to be audited, as well as the elements that have not been included in this audit are identified in Section 5.0 of this plan.

- o High Level Waste Division Procedures for Conducting Observation Audits of U.S. Department of Energy High Level Waste Repository Program Quality Assurance Audits

5.0 ACTIVITIES TO BE AUDITED

The audit will include REECO activities in the following Programmatic Element:

17.0 Quality Assurance Records

The following programmatic elements were eliminated from the audit since REECO Audit Finding Reports have been written as the result of REECO internal audits of these elements which required extensive rewriting of procedures as their corrective action:

- 5.0 Instructions, Plans, Procedures and Drawings
- 6.0 Document Control

The following programmatic elements were considered during the development of this audit scope, and have been determined to be not applicable, since REECo has no activities pertaining to these elements:

- 3.0 Design Control
- 19.0 Computer Software
- 20.0 Scientific Investigations

Other programmatic elements will be covered in subsequent audits during Fiscal Year 1992.
