

MEETING ON CRITERIA FOR RELEASE OF INFORMATION

February 7, 2002

1. Discussion of Response to Commission

Response should include:

- Definition of Sensitive Homeland Security Information (correct name?) - D. Rosano

Include examples, if possible

- Address/clarify general comments such as

Availability of information

Information withheld is that which we or our licensees

*control, meaning
generate or receive*

Acknowledge process for withholding decisions, management review

Will work with licensees in issuing similar criteria and guidance

- Revised criteria

2. Forward Path for Review Process - L. Scattolini

- Process in place today in offices
- Process for future reviews

May need to remind licensees that broad def of 2.790 (d)(1) can be used

*process that was abandoned but we can use it
Another alternative is broadening def. of 2.790 info.
Much better from staff standpoint to use 2.790*

** big resource implications
Lst that Lynn passed out is from this day forward*
