NRR release

The NRR Info Review Team has looked at the Reg Guides [DG-1077, RG 1.140, RG 1.143, RG 1.180, RG 5.15, RG 5.44, and RG 5.68] and has determined that they may be released in their entirety w/o restrictions. Although a couple of the RGs deal with security-related subjects, the info in them is general in nature and was developed in recognition of protection of safeguards information. RG 5.15 (Tamper-indicating seals...) would more logically fall into NMSS-area and so you may want to check with them.
