Subject: Re: Guidance on release criteria

Mindy, matters regarding rulemaking are the responsibility of Stuart Treby, Assistant General Counsel for Rulemaking & Fuel Cycle. Please work with his group to have this matter addressed. Thanks.

Don,
In the draft memo to the Commission, Pat noticed we said nothing about asking licensees to identify SHSI and to label it similar to how they label proprietary. Will this require some sort of rulemaking since it is a "burden" that we are placing on the licensees? I just want to know before we insert that into the memo and cause a stir....

CC: Elizabeth Hackley; Janet Lanier; Stuart Treby
