U. S. Nuclear Regulatory Commission  
Attn: Document Control Desk  
Washington, DC 20555-0001

Three Mile Island Unit I (TMI-1)  
Operating License No. DPR-50  
Docket No. 50-289

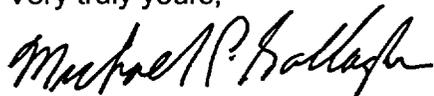

Subject: Withdrawal of Technical Specification Change Request (TSCR) 298, Revision 1 - Independent Onsite Safety Review Group" (TAC NO. MB2964), dated August 14, 2001

Reference: AmerGen Letter to NRC, "Three Mile Island Nuclear Station, Unit 1 (TMI-1) Technical Specification Change Request (TSCR) NO. 298, Revision 1 - Independent Onsite Safety Review Group" (TAC NO. MB2964), Dated August 14, 2001

In accordance with recent discussions with NRC Staff, AmerGen Energy Company, LLC (AmerGen) hereby withdraws the referenced proposed request to amend Operating License DPR-50, which would have eliminated requirements associated with the Independent Onsite Safety Review Group (IOSRG) from the Three Mile Island Unit 1 Technical Specifications. AmerGen intends to make another submittal to relocate these requirements to a licensee-controlled document.

If you have any questions or require further information, please contact us.

Very truly yours,

Michael P. Gallagher  
Director, Licensing & Regulatory Affairs  
Mid-Atlantic Regional Operating Group
