ENCLOSURE

## 1.0 SCOPE

This limited scope internal audit, by a team of auditors from the Yucca Mountain Quality Assurance Division (YMQAD) of the Office of Quality Assurance (OQA), will evaluate the Yucca Mountain Site Characterization Project Office (YMPO) Quality Assurance Program to determine whether it meets the requirements and commitments imposed by the Office of Civilian Radioactive Waste Management (OCRWM). This will be done by verifying implementation and effectiveness of the system in place, as well as verifying compliance with requirements.

In addition to follow-up on open Corrective Action Requests, a representative sample of discrepancies identified during previous QA audits and surveillances of YMPO will be included in the scope of this audit to determine the effectiveness of YMPO corrective actions.

The programmatic elements to be audited during this limited scope audit are identified in Section 4.0 of this plan.
