Subject: Re: Event reports

Mr Singleton:

Prior to Oct 2001, the NRC posted routine event reports on our Web site as a service to the public, NRC licensees, and others. We are currently in the process of restoring material to our Web site following changes to the design of the site and reviews to ensure that material on the site does not contain sensitive information in light of increased security following the events of Sept 11, 2001. We are not obligated by law or regulation to post most of the information that was previously on our site. We hope, however, to bring back as much as possible, especially the material that was visited frequently on our previous site. In the mean time, if you have an interest in events at a particular site or during a certain time period, we can provide them to you. In addition, many of the events that were called in by telephone were included in the daily event reports on the web site also require written reports that are available from our records retrieval system, ADAMS (see Electronic Reading Room on our Web site).

Please respond to this email or call Bill Reckley at (301) 415-2429 if you have additional questions or would like to request specific material.

This is a second request. What statutory authority does the Commission have for withholding Event Reports?
