Commissioner Diaz is strongly opposed to the creation of a new standard of "clear and significant" and continues to support the "could reasonably be expected" wording for the SRM. He has written to your principals by memorandum dated 1/22/2002 on this subject.

Please review the changes to the draft SRM on COMSECY-01-0030 (Guidance on Release of Information to the Public) in the attached file (sy01-0030.c.wpd). This is Version C. Please respond by January 24, 2002.

Thanks,

Ken
