Subject: Table of documents to be reviewed

Attached is a WordPerfect version of the table of NRC documents that are routinely released to the public. This list is taken from Exhibit 1 of Management Directive 3.4 "Release of Information to the Public." I've also attached the entire Management Directive in a PDF file.

This list needs to be reviewed in light of the revised criteria. I added columns to this list so the items can be classified as we discussed at the last meeting. Take a brief look at the list before our meeting tomorrow. We need to decide how to proceed in determining what documents should be reviewed prior to release.

INSTRUCTIONS FOR REVIEWING THE LIST OF DOCUMENTS THAT ARE NOW BEING "ROUTINELY RELEASED TO THE PUBLIC" PER MANAGEMENT DIRECTIVE 3.4, "RELEASE OF INFORMATION TO THE PUBLIC"

Attached is a table of NRC documents that are routinely released to the public in accordance with and presented in Exhibit 1 of Management Directive 3.4. This list should be reviewed within the context of explanatory information contained the rest of this Management Directive. This Management Directive can be found in ADAMS Main Library under Accession Number ML020360392.

The items in this table should be reviewed in light of the revised criteria for public release and classified as belonging to one of the three categories – White, Grey, Black – described below.

<u>Column #</u>	<u>Column Name</u>	<u>Class Description</u>
(4)	White	Documents containing this type of information <u>should not contain</u> SHSI-type information, therefore they do not have to be reviewed. They can continue to be routinely released under current process. They can, if there is doubt, be submitted for review and release approval.
(5)	Grey	Documents containing this type of information <u>may contain</u> SHSI-type information. They should be reviewed under a new process. Approval is required for public release.
(6)	Black	Documents containing this type of information <u>almost always contain</u> SHSI-type information. They should not be released and do not need review.
(7)	Public Version Needed?	Do documents containing this SHSI information contain other <u>substantive information</u> that should be made available to the public?
(8)	NOTES:	Make notes here if in reviewing this list, you: (a) see that there are types of public information/documents that missing from this list or (b) feel that the current descriptions can be improved.

**Types of Information as listed in Exhibit 1 of
MANAGEMENT DIRECTIVE 3.4 "Release of Information to the
Public", Revised Dec. 1, 1999.**

Table of Contents

- A. Documents relating to the issuance and use of a construction permit and operating license for nuclear facilities -- power reactors, research and test reactors, and fuel fabrication facilities (Part 50)4**
 - 4. Documents relating to the review of tendered or accepted application for and issuance of a construction permit. 4**
 - 5. Documents relating to the review of a tendered or accepted application for and issuance of an operating license6**
 - 6. Other documents associated with the review and issuance of a construction permit and operating license8**
 - 7. Documents involved in proceedings, including hearings, before the Atomic Safety Licensing Board Panel (ASLBP) and the Commission review of board decisions.9**
 - 8. Documents relating to the issuance of an amendment to a license9**
 - 9. Documents relating to the NRC Inspection and Enforcement Program10**
 - 10. Reports submitted by applicants and licensees pursuant to a construction permit and a nuclear facility operating license11**
 - 11. Documents relating to decommissioning12**
 - 12. Other documents relating to the licensing process for nuclear facilities13**
- B. Documents relating to licensed reactor operators13**
- C. Documents relating to the issuance of licenses to use, process, and store byproduct material (Parts 30 through 39). The documents are placed in the PDR in microfiche after the license is issued. (The documents are placed under the docket number for all licenses.)14**
- D. Documents relating to the issuance of a license to possess and process uranium source material in uranium milling or production of uranium hexafluoride (Part 40)15**
- E. Documents relating to the issuance of a licensee to possess source material involving natural and depleted uranium or thorium (Part 40), and documents to possess and use or possess only special nuclear material; enriched uranium U-235, enriched uranium U-233, and plutonium (Part 70). (The documents are placed under the docket number for all licensees.)18**
- F. Documents relating to the issuance of a license to receive and dispose of low-level radioactive waste (Part 61); includes existing documents placed in the PDR under Docket 27. (Documents are placed under the docket number for all licensees.)21**
- G. Documents relating to the issuance of an approval of the design of a package for use in delivering licensed nuclear material to a carrier for transportation (Part 71)24**
- H. Documents relating to the review of the application for issuance of a license to operate spent fuel storage facility (Part 72). (Documents are placed under the docket number for all**

licensees.) 26

- I. Documents relating to the approval of routes for the transport of spent fuel (filed in the PDR under Part 71 but considered a Part 73 approval)30
- J. Documents relating to the pre-licensing activities involving the high-level waste repository (Part 60)30
- K. Documents relating to the issuance of licenses to export or import nuclear materials or components for nuclear facilities (Part 110)32
- L. Documents relating to the Agreement State Program, State liaison activities, and State and local government radiological emergency response planning (Memoranda of Understanding and Interagency Agreements with Federal Agencies [e.g., Department of Transportation (DOT), DOE, EPA, Occupational Safety and Health Administration (OSHA), FEMA, and Department of Defense (DOD)]33
- M. Records relating to the activities of the Commissioners34
- N. Congressional and Executive Correspondence35
- O. Documents relating to the Commission Federal Advisory Committees (FACs)35
- P. Documents relating to the issuance of NRC regulations, regulatory guides, and generic requirements36
- Q. NRC solicitation and contract award documents and contractor-developed reports37
- R. Documents relating to vendor activities38
- S. Freedom of Information Act documents38
- T. NRC reports, publications, and directives39
- U. Correspondence between the NRC and the applicant or licensee regarding license fees (to be placed in the docket file pertaining to the relevant application or license)40
- V. Documents relating to 2.206 petitions40

Row No.	Office	Categories of Documents that should be routinely released to public, according Management Directive 3.004, Revised December 1, 1999	Does this category potentially contain SHSI information?			Public version needed ?	Reviewer Notes
			No White (4)	May Grey (5)	Almost always Black (6)		
2		A. Documents relating to the issuance and use of a construction permit and operating license for nuclear facilities -- power reactors, research and test reactors, and fuel fabrication facilities (Part 50)					
3		4. Documents relating to the review of tendered or accepted application for and issuance of a construction permit.					
4		a. Review of the applicant's preliminary safety analysis report (PSAR)					
5	NRR/NMSS	(1) PSAR					
6	NRR/NMSS	(2) Amendments to the PSAR					
7	NRR/NMSS	(3) Correspondence sent to the applicant regarding the PSAR, including questions sent to the applicant for response.					
8	NRR/NMSS	(4) Correspondence from the applicant regarding the PSAR					
9	NRR/NMSS	(5) Safety evaluation report (SER)					
10	NRR/NMSS	(6) Supplements to the SER					
11		b. Other documents relating to the review of radiological safety					
12	NRR/NMSS	(1) Quality assurance program plan and related correspondence with the applicant					
13	NRR/NMSS	(2) Fire protection plan and related correspondence with the applicant					
14	NRR/NMSS	(3) Inservice inspection and testing program plan and related correspondence with the applicant					
15	NRR/NMSS	(4) Environmental qualifications program plan and related correspondence with the applicant					
16	NRR/NMSS	(5) Other documents and correspondence relating to implementation of multiplant requirements in NUREG-0748, "Operating Reactors Licensing Actions Summary."					
17		c. Review of the applicant's environmental report					
18	NRR/NMSS	(1) Environment report					
19	NRR/NMSS	(2) Amendments and supplements to the environmental report					
20	NRR/NMSS	(3) Site suitability information and early site review information					
21	NRR/NMSS	(4) Correspondence from NRC to the applicant regarding the environment report, its supplements, and site suitability information, including questions sent to the applicant for response.					
22	NRR/NMSS	(5) Correspondence from the applicant to the NRC to the applicant regarding the environment report and site suitability information, including answers to questions submitted by the NRC					
23	NRR/NMSS	(6) Report on site visits					
24	NRR/NMSS	(7) Draft environmental impact statement (DEIS) and supplements					

25	NRR/NMSS	(8) Meeting notices and meeting summaries of public meetings with applicants, and other notices and meeting summaries					
26	NRR/NMSS	(9) Comments on the DEIS from individuals, States, local government agencies, Federal agencies, and other groups and organizations					
27	NRR/NMSS	(10) Final environmental impact statement (FEIS) and supplements					
28	NRR/NMSS	(11) <i>Federal Register</i> notices for items (1) and (2) above					
29		d. Documents relating to a limited work authorization (LWA)					
30	NRR/NMSS	(1) LWA					
31	NRR/NMSS	(2) Amendments to the LWA and related correspondence with the applicant					
32	NRR/NMSS	(3) Correspondence with applicant pertaining to work performed under the LWA					
33		e. General information provided in the tendered or accepted application for a construction permit and related correspondence with the applicant					
34		f. Documents relating to the issuance of an amendment to a construction permit					
35	NRR/NMSS	(1) Proposed amendment to a construction permit					
36	NRR/NMSS	(2) Correspondence from the NRC to the applicant regarding the proposed amendment to a construction permit, including questions submitted for the applicant's response					
37	NRR/NMSS	(3) Correspondence from the applicant to the NRC regarding proposed amendment to a construction permit, including answers to questions submitted by the NRC					
38	NRR/NMSS	(4) Safety evaluation report on the proposed amendment					
39	NRR/NMSS	(5) Amendment to the construction permit					
40		5. Documents relating to the review of a tendered or accepted application for and issuance of an operating license					
41		a. Review of the applicant's final safety analysis report (FSAR)					
42	NRR/NMSS	(1) FSAR and accompanying certificate of service					
43	NRR/NMSS	(2) Amendments to the FSAR and related correspondence with the applicant					
44	NRR/NMSS	(3) Correspondence to the applicant regarding the FSAR, including questions sent to the applicant for response					
45	NRR/NMSS	(4) Correspondence from the applicant regarding the FSAR, including answers to questions submitted by the NRC for response					
46	NRR/NMSS	(5) Draft safety evaluation report (DSER), supplements, and related correspondence with the applicant and other parties					
47	NRR/NMSS	(6) SER and supplements					
48		b. Documents relating to emergency plans and amendments to emergency plans					
49	NRR/NMSS	(1) Emergency plans					
50	NRR/NMSS	(2) Amendments to emergency plans					
51	NRR/NMSS	(3) Correspondence from the NRC to the applicant/licensee regarding the plan or amendment, including questions submitted for response					
52	NRR/NMSS	(4) Health Physics Program					
53	NRR/NMSS	(5) Emergency implementation procedures					
54	NRR/NMSS	(6) Correspondence related to safeguards plans					
55	NRR/NMSS	(7) Correspondence from the applicant/licensee to the NRC regarding the plan or amendment, including answers to questions submitted by the NRC for response					

56	NRR/NMSS	(8) Correspondence to and from State and local governments relating to the plan or amendment					
57	NRR/NMSS	(9) Documents received from the Federal Emergency Management Agency (FEMA) that relate to a specific nuclear power plant or nuclear power plant site					
58		c. Other documents relating to the radiological safety review					
59	NRR/NMSS	(1) Quality assurance program plan, related correspondence with the applicant, and related meeting notices and minutes of meetings with the applicant					
60	NRR/NMSS	(2) Fire protection plan, related correspondence with the applicant, and related meeting notices and minutes of meetings with the applicant					
61	NRR/NMSS	(3) Inservice inspection and testing program plan, related correspondence with the applicant, and related meeting notices and minutes of meetings with the applicant					
62	NRR/NMSS	(4) Environmental qualification program plan, related correspondence with the applicant, related meeting notices, and minutes of meetings with the applicant					
63	NRR/NMSS	(5) Other documents and correspondence relating to implementation of multiplant requirements described in NUREG-0748, "Operating Reactors Licensing Actions Summary"					
64		d. Documents relating to the review of the applicant's environmental report					
65	NRR/NMSS	(1) Environmental report and supporting documents					
66	NRR/NMSS	(2) Amendments to the environmental report					
67	NRR/NMSS	(3) Correspondence from the NRC to the applicant regarding the environment report, its supplements, and other supporting information, including questions sent to the applicant for response					
68	NRR/NMSS	(4) Correspondence from the applicant to the NRC regarding the environmental report, its supplements, and other supporting information, including answers to questions submitted by the NRC					
69	NRR/NMSS	(5) Report of site visits					
70	NRR/NMSS	(6) Meeting notices and summaries of public meetings and other meeting notices and summaries with applicants and licensees (if applicable)					
71	NRR/NMSS	(7) DEIS					
72	NRR/NMSS	(8) Comments on the DEIS from individuals, State, local, and Federal agencies, industry, and other organizations					
73	NRR/NMSS	(9) FEIS					
74		e. General information provided on the tendered or accepted application					
75		6. Other documents associated with the review and issuance of a construction permit and operating license					
76		a. Documents relating to the review of the applicant's antitrust information					
77	NRR/NMSS	(1) Antitrust information submitted as part of the application for a construction permit and an operating license					
78	NRR/NMSS	(2) Staff analyses of the applicant antitrust information					
79	NRR/NMSS	(3) Correspondence with the applicant regarding antitrust matters					
80	NRR/NMSS	(4) Findings and conclusions of attorney advice letters and correspondence between the NRC and the Attorney General regarding applicant antitrust information					
81	NRR/NMSS	(5) Hearing transcripts, testimony, submittals, and briefings on antitrust matters					

82		b. Insurance and indemnity information					
83	NRR	(1) Licensee indemnity agreement and amendments					
84	NRR	(2) Endorsement of licensee's insurance policies					
85	NRR	(3) Other correspondence regarding indemnity and insurance matters					
86		7. Documents involved in proceedings, including hearings, before the Atomic Safety Licensing Board Panel (ASLBP) and the Commission review of board decisions.					
87	SECY	a. Request for a hearing					
88	SECY	b. Board notifications					
89	SECY	c. Motions, petitions, interrogatories, answers, discovery requests, request for admission, and requests to make a limited appearance					
90	SECY	d. Briefs, testimony, and statements of the applicant, NRC staff, and other parties					
91	ASLBP	e. Transcripts of hearings					
92	SECY	f. Orders, opinions, and decisions of the boards and Commission, including those directing the issuance of a construction permit, an operating license, and amendments to the construction permit and the operating license					
93	SECY	g. Other filings and documentation submitted by parties to the proceedings to the boards					
94		8. Documents relating to the issuance of an amendment to a license					
95	NRR/NMSS	a. Proposed amendment to a license					
96	NRR/NMSS	b. Correspondence from the NRC to the licensee regarding the proposed amendments to a license, including questions submitted for the licensee's response					
97	NRR/NMSS	c. Correspondence from the licensee to the NRC regarding proposed amendments to a license, including answers to questions submitted by the NRC					
98	NRR/NMSS	d. SER on the proposed amendment					
99	NRR/NMSS	e. Amendment to the license					
100		9. Documents relating to the NRC Inspection and Enforcement Program					
101	NRR/NMSS/ RGN	a. Inspection reports					
102	RGN	b. Preliminary notification (PN) of event					
103	OE/RGN	c. Notice of violation/nonconformance (may include proposed imposition of civil penalty)					
104	OE/RGN	d. Licensee or vendor response to the notice of violation					
105	OE/RGN	e. NRC acknowledgement of receipt of the licensee response to the notice of violation/nonconformance					
106	NRR/NMSS/ OE	f. Orders					
107	RGN	g. Licensee response to an order					
108	NRR/NMSS	h. Bulletins					
109	RGN	i. Licensee response to a bulletin					
110	NRR/NMSS	j. Information notices					
111	OE	k. Notification of significant enforcement action (to be submitted to the PDR and the LPDR after the enforcement action has been taken)					
112	NRR/NMSS	l. Confirmatory action prepared					
113	NRR	m. Systematic assessment of licensee performance (SALP) reports					
114	NRR/NMSS	n. International Atomic Energy Agency (IAEA) inspection reports					

115	NRR/NMSS/ RGN	o. Meeting notices and summaries					
116		10. Reports submitted by applicants and licensees pursuant to a construction permit and a nuclear facility operating license					
117	RGN	a. Effluent releases report required by 10 CFR 50.36a(a)(2)					
118	OE/RGN	b. Changes in emergency plan made without prior approval required by 10 CFR 50.54(p)					
119	RGN	c. Construction deficiency notice required by 10 CFR 50.55(e)(2)					
120	NRR	d. Construction deficiency report required by 10 CFR 50.55(e)(3)					
121	NRR	e. Facility changes, tests, and experiments conducted without prior approval required by 10 CFR 50.59(b)					
122	RGN	f. Annual financial report required by 10 CFR 50.71(b)					
123	NRR	g. Final safety analysis report (FSAR) updates required by 10 CFR 50.71(e)(1)					
124	RGN	h. Licensee event reports required by 10 CFR 50.73					
125	NRR	i. Report on fracture toughness required by 10 CFR Part 50, Appendix G, Sec. V.E					
126	NRR	j. Report on test results of specimens withdrawn from capsules (fracture toughness tests) required by 10 CFR Part 50, Appendix H, Sec. III.A					
127	RGN	k. Report on effluents released in excess of design objectives required by 10 CFR Part 50, Appendix I, Sec. III.A					
128	NRR	l. Report on reactor containment building integrated leak rate test required by 10 CFR Part 50, Appendix J, Sec. V.B					
129	RGN	m. Reports on startup of reactor required by technical specifications					
130	NRR	n. Monthly operating report required by technical specifications					
131	RGN	o. Reportable occurrence required by technical specifications					
132	RGN	p. Source leakage reports required by technical specifications					
133	RGN	q. Annual environmental operation reports required by technical specifications					
134	RGN	r. Nonroutine environmental operating reports required by technical specifications					
135	RGN	s. Radiation exposure by functions report required by technical specifications					
136		11. Documents relating to decommissioning					
137		a. Review of the application to dismantle or decommission a nuclear facility					
138	NRR	(1) Application and supporting documents, including the decommissioning/dismantling plan					
139	NRR	(2) Supplements to the applications					
140	NRR	(3) Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
141	NRR	(4) Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
142	NRR	(5) Correspondence to and from State and local governments relating to the applicant (if applicable)					
143	NRR/NMSS	(6) Decommissioning approval					
144		b. Review of the applicant's environmental report					
145	NRR	(1) Environmental report and supporting documents					
146	NRR	(2) Supplements to the environmental report					

		1 4 7	N R R	(3) Correspondence from the NRC to the applicant regarding the environmental report, its supplements, and other supporting information, including questions sent to the applicant for response					
148	NRR			(4) Correspondence from the applicant to the NRC regarding the environmental report, its supplements, and other supporting information, including answers to questions submitted by the NRC					
149	NRR			(5) Report of site visits					
150	NRR			(6) Summaries of public meetings (if applicable)					
151	NRR			(7) DEIS					
152	NRR			(8) Comments on the DEIS from individuals, State, local, and Federal agencies, industry, and other organizations					
153	NRR			(9) FEIS					
154	NRR			(10) Environmental impact appraisal and negative declaration (when applicable)					
155	NRR/NMSS			c. Licensee reports during decommissioning and dismantling					
156				12. Other documents relating to the licensing process for nuclear facilities					
157	NRR			a. Generic letters					
158				B. Documents relating to licensed reactor operators					
159	NRR			1. List of reactor operator licensees (quarterly computer printout)					
160	NRR			2. Operator and senior operator licensing examinations					
161	NRR			3. Requalification examination reports					
162	NRR			4. Notification and cancellation of operator licenses					
163	NRR			5. Order and modifications to revoke or suspend operator licenses					
164	NRR			6. Operator evaluation reports					
165	NRR			7. Meeting summaries and related correspondence					
166	NRR			8. Fitness-for-duty reports					
167	NRR			9. Facility-submitted operator licensing written examinations					
168	NRR			10. Operator licensing operating examinations, as given					
169				C. Documents relating to the issuance of licenses to use, process, and store byproduct material (Parts 30 through 39). The documents are placed in the PDR in microfiche after the license is issued. (The documents are placed under the docket number for all licenses.)					
170	NMSS/RGN			1. Applications for licenses and for renewal or amendment of licenses					
171	NMSS/RGN			2. Licenses and amendments to licenses					

172	NMSS/RGN	3.	Correspondence with licensees or prospective licensees regarding additional information					
173	NMSS/RGN	4.	Internal memoranda regarding license applications					
174	NMSS/RGN	5.	Enforcement letters and related correspondence					
175	NMSS/RGN	6.	Licensee reports					
176		7.	Documents relating to the NRC Inspection and Enforcement Program					
177	NRR/NMSS/ RGN	a.	Inspection reports					
178	RGN	b.	PN of event					
179	OE/RGN	c.	Notice of violation/nonconformance (may include proposed imposition of civil penalty)					
180	NRR/NMSS	d.	Licensee or vendor response to the notice of violation					
181	OE/RGN	e.	NRC acknowledgement of receipt of the licensee response to the notice of violation/nonconformance					
182	NRR/NMSS/ OE	f.	Orders					
183	RGN	g.	Licensee response to an order					
184	NRR/NMSS	h.	Bulletins					
185	RGN	i.	Licensee response to a bulletin					
186	NRR/NMSS	j.	Information notices					
187	OE	k.	Notification of significant enforcement action (to be submitted to the PDR and the LPDR after the enforcement action has been taken)					
188	NRR/NMSS	l.	Confirmatory action prepared					
189	NRR/NMSS/ RGN	m.	Meeting notices and summaries					
190		D.	Documents relating to the issuance of a license to possess and process uranium source material in uranium milling or production of uranium hexafluoride (Part 40)					
191		1.	Review of the application					
192	NMSS	a.	Application and supporting documents					
193	NMSS	b.	Supplements to the application					
194	NMSS	c.	Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
195	NMSS	d.	Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
196	NMSS	e.	Correspondence to and from State and local governments relating to the application (if applicable)					
197		f.	Documents related to hearings to obtain a construction permit, including the construction permit. Documents involved in proceedings, including hearings before the ASLBP and the Commission review of board decisions					
198	SECY	(1)	Request for a hearing					
199	SECY	(2)	Board notifications					

	2 0 0	SECY	(3) Motions, petitions, interrogatories, answers, discovery requests, requests for admission, and requests to make a limited appearance					
201	SECY		(4) Briefs, testimony, and statement of the applicant, NRC staff, and other parties					
202	ASLBP		(5) Transcripts of hearings					
203	SECY		(6) Orders, opinions, and decisions of the boards and Commission, including those directing the issuance of a construction permit, an operating license, and amendments to the construction permit and the operating license					
204	SECY		(7) Other filings and documentation submitted by parties to the proceedings to the boards					
205	SECY		(8) License					
206		2.	Review of the applicant's environmental report					
207	NMSS		a. Environmental report and supporting documents					
208	NMSS		b. Supplements to the environmental report					
209	NMSS		c. Correspondence from the NRC to the applicant regarding the environmental report, its supplements, and other supporting information, including questions sent to the applicant for response					
210	NMSS		d. Correspondence from the applicant to the NRC regarding the environmental report, its supplements, and other supporting information, including answers to questions submitted by the NRC					
211	NMSS		e. Report of site visits					
212	NMSS		f. Summaries of public meetings (if applicable)					
213	NMSS		g. DEIS					
214	NMSS		h. Comments on the DEIS from individuals, State, local, and Federal agencies, industry, and other organizations					
215	NMSS		i. FEIS					
216	NMSS		j. Environmental assessment and negative declaration (when applicable)					
217		3.	Review of proposed amendments to a license					
218	NMSS		a. Proposed statement					
219	NMSS		b. Correspondence from the NRC to the licensee regarding the proposed amendment, including questions submitted for the applicant's response					
220	NMSS		c. Correspondence from the licensee to the NRC regarding the proposed amendment, including answers to questions submitted by NRC					
221	NMSS		d. SER					
222	NMSS		e. Amendment to a license					
223		4.	Reports submitted by the licensee					
224	NMSS		a. Environmental monitoring report for air quality and water quality required by 10 CFR 40.65					
225	NMSS		b. Semiannual land use survey					
226	NMSS		c. Financial security documents					

227		5. Documents relating to the NRC Inspection and Enforcement Program					
228	NMSS/RGN	a. Inspection reports					
229	RGN	b. PN of event					
230	OE/NMSS/ RGN	c. Notice of violation/nonconformance (may include propose imposition of civil penalty)					
231	OE/NMSS/ RGN	d. Licensee or vendor response to the notice of violation					
232	OE/NMSS/ RGN	e. NRC acknowledgement of receipt of the licensee response to the notice of violation/nonconformance					
233	NMSS/OE	f. Orders					
234	NMSS/RGN	g. Licensee response to an order					
235	NMSS	h. Bulletins					
236	NMSS/RGN	i. Licensee response to a bulletin					
237	NMSS	j. Information notices					
238	OE	k. Notification of significant enforcement action (to be submitted to the PDR and the LPDR after the enforcement action has been taken)					
239	NMSS	l. Confirmatory action prepared					
240	NMSS/RGN	m. Meeting notices and summaries					
241		E. Documents relating to the issuance of a license to possess source material involving natural and depleted uranium or thorium (Part 40), and documents to possess and use or possess only special nuclear material; enriched uranium U-235, enriched uranium U-233, and plutonium (Part 70). (The documents are placed under the docket number for all licensees.)					
242		1. Review of the application					
243	NMSS	a. Application and supporting documents					
244	NMSS	b. Supplements to the application					
245	NMSS	c. Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
246	NMSS	d. Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
247	NMSS	e. Correspondence to and from State and local governments relating to the application (if applicable)					
248	NMSS	f. Documents relating to safety evaluations					
249		2. Review of the applicant's environmental report					
250	NMSS	a. Environmental report and supporting documents					
251	NMSS	b. Supplements to the environmental report					
252	NMSS	c. Correspondence from the NRC to the applicant regarding the environmental reports, amendments, and other supporting information, including questions sent to the applicant for response					
253	NMSS	d. Correspondence from the applicant to the NRC regarding the environmental report, its supplements, and other supporting information, including answers to questions submitted by the NRC					
254	NMSS	e. Report of site visits					
255	NMSS	f. Meeting announcements and summaries of public meetings (if applicable)					

256	NMSS		g. DEIS and supplements					
257	NMSS/ADM		h. Comments on the DEIS from individuals, State, local, and Federal agencies, industry, and other organizations					
258	NMSS		i. FEIS and supplements					
259	NMSS		j. Environmental assessment and finding of no significant impact (when applicable)					
260		3.	Documents related to hearings to obtain a construction permit, including the construction permit. Documents involved in proceedings, including hearings before ASLBP and the Commission review of board decisions.					
261	SECY		a. Request for a hearing					
262	SECY		b. Board notifications					
263	SECY		c. Motions, petitions, interrogatories, answers, discovery requests, request for admission, and request to make a limited appearance					
264	SECY		d. Briefs, testimony, and statements of the applicant, NRC staff, and other parties					
265	ASLBP		e. Transcripts of hearings					
266	SECY		f. Orders, opinions, and decisions of the boards and the Commission, including those directing the issuance of a construction permit, an operating license, and amendments to the construction permit and the operating license					
267	SECY		g. Other filings and documentation submitted by parties to the proceedings of the boards					
268	NMSS		h. License					
269		4.	Review of proposed amendments to a license					
270	NMSS		a. Proposed amendment					
271	NMSS		b. Correspondence from the NRC to the licensee regarding the proposed amendment, including questions submitted for the applicant's response					
272	NMSS		c. Correspondence from the licensee to the NRC regarding the proposed amendment, including answers to questions submitted by the NRC					
273	NMSS		d. SER					
274	NMSS		e. Amendment to a license					
275	NMSS	5.	Reports submitted by the licensee					
276		6.	Documents relating to the NRC Inspection and Enforcement Program					
277	NMSS/RGN		a. Inspection reports					
278	RGN		b. PN of event					
279	OE/NMSS/RGN		c. Notice of violation/nonconformance (may include proposed imposition of civil penalty)					
280	OE/NMSS/RGN		d. Licensee or vendor response to the notice of violation					
281	OE/NMSS/RGN		e. NRC acknowledgement of receipt of the licensee response to the notice of violation/nonconformance					
282	NMSS/OE		f. Orders					
283	RGN		g. Licensee response to an order					
284	NMSS		h. Bulletins					
285	RGN		i. Licensee response to a bulletin					
286	NMSS		j. Information notices					

287	OE	k. Notification of significant enforcement action (to be submitted to the PDR and LPDR after the enforcement action has been taken)					
288	NMSS	l. Confirmatory action prepared					
289	NMSS/RGN	m. Meeting notices and summaries					
290		F. Documents relating to the issuance of a license to receive and dispose of low-level radioactive waste (Part 61); Includes existing documents placed in the PDR under Docket 27. (Documents are placed under the docket number for all licensees.)					
291		1. Review of the application					
292	NMSS	a. Application and supporting documents					
293	NMSS	b. Supplements to the application					
294	NMSS	c. Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
295	NMSS	d. Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
296	NMSS	e. Correspondence to and from State and local governments relating to the application (if applicable)					
297	NMSS	f. Documents relating to safety evaluations					
298		2. Review of the applicant's environmental report					
299	NMSS	a. Environmental report and supporting documents					
300	NMSS	b. Supplements to the environmental report					
301	NMSS	c. Correspondence from the NRC to the applicant regarding the environmental report, its supplements, and other supporting information, including questions sent to the applicant for response					
302	NMSS	d. Correspondence from the applicant to the NRC regarding the environmental report, its supplements, and other supporting information, including answers to questions submitted by the NRC					
303	NMSS	e. Report of site visits					
304	NMSS	f. Meeting notices and summaries of public meetings (if applicable)					
305	NMSS	g. DEIS and supplements					
306	NMSS	h. Comments on the DEIS from individuals, State, local, and Federal agencies, industry, and other organizations					
307	NMSS	i. FEIS and supplements					
308	NMSS	j. Environmental assessment and finding of no significant impact (when applicable)					
309		3. Documents related to hearings to obtain a construction permit, including the construction permit. Documents involved in proceedings, including hearings before ASLBP and the Commission review of board decisions.					
310	SECY	a. Request for a hearing					
311	SECY	b. Board notifications					
312	SECY	c. Motions, petitions, interrogatories, answers, discovery requests, requests for admission, and requests to make a limited appearance					
313	SECY	d. Briefs, testimony, and statements of the applicant, NRC staff, and other parties					
314	ASLBP	e. Transcripts of hearings					

315	SECY	f. Orders, opinions, and decisions of the boards and the Commission, including those directing the issuance of a construction permit, an operating license, and amendments to the construction permit and the operating license					
316	SECY	g. Other filings and documentation submitted by parties to the proceedings to the boards					
317	NMSS	h. License					
318		4. Review of proposed amendments to a license					
319	NMSS	a. Proposed amendment					
320	NMSS	b. Correspondence from the NRC to the licensee regarding the proposed amendment, including questions submitted for the applicant's response					
321	NMSS	c. Correspondence from the licensee to the NRC regarding the proposed amendment, including answers to questions submitted by the NRC					
322	NMSS	d. Safety evaluations and related records					
323	NMSS	e. Amendment to a license					
324	NMSS	5. Reports submitted by the licensee					
325		6. Documents relating to the NRC Inspection and Enforcement Program					
326	NRR/NMSS/ RGN	a. Inspection reports					
327	RGN	b. PN of event					
328	OE/RGN	c. Notice of violation/nonconformance (may include proposed imposition of civil penalty)					
329	OE/RGN	d. Licensee or vendor response to the notice of violation					
330	OE/RGN	e. NRC acknowledgement of receipt of the licensee response to the notice of violation/nonconformance					
331	NRR/NMSS/ OE	f. Orders					
332	RGN	g. Licensee response to an order					
333	NRR/NMSS	h. Bulletins					
334	RGN	i. Licensee response to a bulletin					
335	NRR/NMSS	j. Information notices					
336	OE	k. Notification of significant enforcement action (to be submitted to the PDR and the LPDR after the enforcement action has been taken)					
337	NMSS	l. Confirmatory action prepared					
338	NMSS	m. Meeting notices and summaries					
339		7. Documents relating to other general waste management activities, and so forth (low-level waste [LLW] and uranium recovery)					
340	NMSS	a. LLW land disposal licenses (Dockets 27 and 61), amendments, and related correspondence					
341	NMSS	b. Meeting notices and summaries					
342	NMSS	c. Topical reports and related correspondence					
343		8. All correspondence related to the DOE Uranium Mill Tailings Remedial Action Program (UMTRAP) that is not of a proprietary nature, as designated in writing by DOE					
344	NMSS	a. Correspondence between NRC and DOE related to UMTRAP					

345	NMSS	b. DOE cooperative agreements					
346		G. Documents relating to the issuance of an approval of the design of a package for use in delivering licensed nuclear material to a carrier for transportation (Part 71)					
347		1. Review of the design application					
348	NMSS	a. Application, safety analysis report, and supporting documents					
349	NMSS	b. Supplements to the application					
350	NMSS	c. Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
351	NMSS	d. Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
352	NMSS	e. Correspondence to and from State and local governments relating to the application (if applicable)					
353	NMSS	f. Certificate of compliance					
354		2. Review of the quality assurance program					
355	NMSS	a. Application and supporting documents					
356	NMSS	b. Supplements to the application					
357	NMSS	c. Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
358	NMSS	d. Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
359	NMSS	e. Correspondence to and from State and local governments relating to the application (if applicable)					
360	NMSS	f. Quality assurance program approval					
361	NMSS	3. Registration for use of an approved package					
362		4. Documents relating to the NRC Inspection and Enforcement Program					
363	NRR/NMSS/ RGN	a. Inspection reports					
364	RGN	b. PN of event					
365	OE/RGN	c. Notice of violation/nonconformance (may include proposed imposition of civil penalty)					
366	OE/RGN	d. Licensee or vendor response to the notice of violation					
367	OE/RGN	e. NRC acknowledgement of receipt of the licensee response to the notice of violation/nonconformance					
368	NRR/NMSS/ OE	f. Orders					
369	RGN	g. Licensee (certificate holder, vendor, fabricator) response to an order					
370	NRR/NMSS	h. Bulletins					
371	RGN	i. Licensee (certificate holder, vendor, fabricator) response to a bulletin					
372	NRR/NMSS	j. Information notices					
373	OE	k. Notification of significant enforcement action (to be submitted to the PDR and the LPDR after the enforcement action has been taken)					
374	NRR/NMSS	l. Confirmatory action prepared					

375	NRR/NMSS/ RCN	m. Meeting notices and summaries					
376		5. Licensee (certificate holder, vendor, fabricator) reports					
377		H. Documents relating to the review of the application for issuance of a license to operate spent fuel storage facility (Part 72). (Documents are placed under the docket number for all licensees.)					
378		1. Review of the safety analysis report and other technical information					
379	NMSS	a. Application, safety analysis report, and supporting documents					
380	NMSS	b. Supplements to the application					
381	NMSS	c. Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
382	NMSS	d. Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for application response					
383	NMSS	e. Correspondence to and from State and local governments relating to the application (if applicable)					
384	NMSS	f. SER					
385	NMSS	g. License/certificate of compliance					
386		2. Review of the applicant's environmental report					
387	NMSS	a. Environmental report and supporting documents					
388	NMSS	b. Supplements to the environmental report					
389	NMSS	c. Correspondence from the NRC to the applicant regarding the environmental report, its supplements, and other supporting information, including questions sent to the applicant for response					
390	NMSS	d. Correspondence from the applicant to the NRC regarding the environmental report, its supplements, and other supporting information, including answers to questions submitted by the NRC					
391	NMSS	e. Report of site visits					
392	NMSS	f. Meeting notices and summaries of public meetings (if applicable)					
393	NMSS	g. DEIS and supplements					
394	NMSS	h. Comments on the DEIS from individuals, State, local, and Federal agencies, industry, and other organizations					
395	NMSS	i. FEIS and supplements					
396	NMSS	j. Environmental assessment and finding of no significant impact (when applicable)					
397		3. Review of proposed amendments to a license/certificate of compliance					
398	NMSS	a. Proposed amendment					
399	NMSS	b. Correspondence from the NRC to the licensee regarding the proposed amendment, including questions submitted for the applicant's response					
400	NMSS	c. Correspondence from the licensee to the NRC regarding the proposed amendment, including answers to questions submitted by the NRC					
401	NMSS	d. SER					
402	NMSS	e. Amendment to a license/certificate of compliance					

403		4. Documents relating to emergency plans and amendments to emergency plans					
404	NMSS	a. Emergency plans					
405	NMSS	b. Amendments to emergency plans					
406	NMSS	c. Correspondence from the NRC to the applicant/licensee/certificate holder regarding the plan or amendment, including questions submitted for response					
407	NMSS	d. Correspondence from the applicant/licensee/certificate holder to the NRC regarding the plan or amendment, including answers to questions submitted by the NRC for response					
408	NMSS	e. Correspondence to and from State and local governments relating to the plan or amendment					
409	NMSS	f. Documents received from FEMA that relate to a specific nuclear power plant or nuclear power plant site					
410		5. Documents relating to the review of the decommissioning plan					
411	NMSS	a. Application and supporting documents					
412	NMSS	b. Supplements to the application					
413	NMSS	c. Correspondence from the NRC to the applicant regarding the application and its supplements, including questions submitted for the applicant's response					
414	NMSS	d. Correspondence from the applicant to the NRC regarding the application and its supplements, including answers submitted by the NRC for response					
415	NMSS	e. Correspondence to and from State and local governments relating to the application (if applicable)					
416	NMSS	6. Periodic reports submitted by the licensee/certificate holder					
417		7. Documents related to hearings to obtain a construction permit, including the construction permit. Documents involved in proceedings, including hearings before ASLBP and the Commission review of board decisions					
418	SECY	a. Request for a hearing					
419	SECY	b. Board notifications					
420	SECY	c. Motions, petitions, interrogatories, answers, discovery requests, requests for admission, and requests to make a limited appearance					
421	SECY	d. Briefs, testimony, and statements of the applicant, NRC staff, and other parties					
422	ASLBP	e. Transcripts of hearings					
423	SECY	f. Orders, opinions, and decisions of the boards and the Commission, including those directing the issuance of a construction permit, an operating license, and amendments to the construction permit and the operating license					
424	SECY	g. Other filings and documentation submitted by parties to the proceedings of the boards					
425	NMSS	h. License					
426		8. Documents relating to the NRC Inspection and Enforcement Program					
427	NRR/NMSS/ RGN	a. Inspection reports					
428	RGN	b. PN of event					
429	OE/RGN	c. Notice of violation/nonconformance (may include proposed imposition of civil penalty)					

430	OE/RGN	d. Licensee/certificate holder (vendor or fabricator) or vendor response to the notice of violation					
431	OE/RGN	e. NRC acknowledgement of receipt of the licensee/certificate holder response to the notice of violation/nonconformance					
432	NRR/NMSS/ OE	f. Orders					
433	RGN	g. Licensee/certificate holder response to an order					
434	NRR/NMSS	h. Bulletins					
435	RGN	i. Licensee/certificate holder response to a bulletin					
436	NRR/NMSS	j. Information notices					
437	OE	k. Notification of significant enforcement action (to be submitted to the PDR and the LPDR after the enforcement action has been taken)					
438	NRR/NMSS	l. Confirmatory action prepared					
439	NRR/NMSS/ RGN	m. Meeting notices and summonses					
440		I. Documents relating to the approval of routes for the transport of spent fuel (filed in the PDR under Part 71 but considered a Part 73 approval)					
441	NMSS	1. Route approval letter to licensee with accompanying strip charts (only after 10 days of the last of a series of shipments in a shipping campaign)					
442		J. Documents relating to the pre-licensing activities involving the high-level waste repository (Part 60)					
443		1. Technical high-level waste site/project-specific pre-licensing documentation, including, but not limited to, the following:					
444	NMSS	a. Nuclear Regulatory Commission/Department of Energy (NRC/DOE) meeting minutes and trip reports related to public meetings, workshops, and site visits					
445	NMSS	b. State and Indian Tribe comments and correspondence					
446	NMSS	c. Technical positions and review plans					
447	NMSS	d. NRC/DOE memoranda of understanding and interagency agreements					
448	NMSS	e. DOE environmental assessments, both draft and final					
449	NMSS	f. DOE site characterization plans, study plans, and site characterization program plans					
450	NMSS	g. NRC site characterization analyses and comments on study plans					
451		2. DOE siting guidelines					
452	NMSS	a. NRC comments sent to DOE on the guidelines					
453	NMSS	b. Comments received by the NRC on the guidelines					
454	NMSS	c. Meeting minutes and trip reports related to the guidelines					
455		3. DOE mission plan and program plan					
456	NMSS	a. NRC comments sent to DOE on the mission plan					
457	NMSS	b. Comments received by NRC on the mission plan					
458	NMSS	c. Meeting minutes and trip reports related to the mission plan					
459		4. DOE project decision schedule (PDS)					
460	NMSS	a. NRC comments sent to DOE on the PDS					

461	NMSS	b. Comments received by NRC on the PDS					
462	NMSS	c. Meeting minutes and trip reports related to the PDS					
463		5. Environment Protection Agency (EPA) high-level waste (HLW) standard					
464	NMSS	a. NRC comments sent to EPA regarding proposed or final EPA HLW standard					
465		6. NRC HLW technical contractor documents					
466	NMSS	a. Incoming and outgoing technical contractor correspondence and reports related to the HLW pre-licensing program					
467	NMSS	7. Generic HLW technical positions and review plans released for public comment					
468		8. Other HLW documents between NRC and DOE or other federal agencies, including but not limited to, the following:					
469	NMSS	a. NRC comments on major Federal agency documents, such as the EPA HLW standard, the DOE Viability Assessment, Draft License Application and Environmental Impact Statement					
470	NMSS	b. NRC/DOE procedural agreements					
471	NMSS	c. NRC/DOE communications related to the HLW pre-licensing process					
472		K. Documents relating to the issuance of licenses to export or import nuclear materials or components for nuclear facilities (Part 110)					
473	OIP	1. Application for a license or proposed amendments to a license					
474	OIP	2. Federal Register notice of application (when required for major application)					
475	OIP	3. Correspondence from the NRC to applicant/licensee regarding the application or proposed amendment, including questions submitted for response					
476	OIP	4. Correspondence from the applicant/licensee regarding the application or proposed amendment, including answers to questions submitted by NRC for response					
477	OIP	5. Correspondence from the NRC to the Department of State for executive branch views or to DOE as an assurance letter					
478	OIP	6. Correspondence to the NRC from the Department of State containing executive branch views or from DOE as an assurance letter					
479	OIP	7. Any correspondence from a member of the public, foreign governments, or international organizations regarding the application or proposed amendment					
480	SECY	8. Staff papers (SECY series) prepared for the Commission's review of an export or import application for a license or proposed amendment to a license (placed in the PDR three (3) days after receipt by the Commissioners)					

481	SECY	9.	Commission decision memorandum on issuance of an application for a license or proposed amendment to a license transmitted by the Office of the Secretary to the Executive Director for Operations					
482	SECY	10.	Documents relating to proceedings before ASLBP					
483	SECY		a. Request for a hearing					
484	SECY		b. Board notifications					
485	SECY		c. Motions, petitions, interrogatories, answers, discovery requests, requests for admission, and requests to make a limited appearance					
486	SECY		d. Briefs, testimony, and statements of the applicant, NRC staff, and other parties					
487	ASLBP		e. Transcripts of hearings					
488	SECY		f. Orders, opinions, and decisions of the boards and the Commission, including those directing the issuance of a construction permit, the operating license, and amendments to the construction permit and the operating license					
489	SECY		g. Other filings and documentation submitted by parties to the proceedings to the boards					
490	OIP	11	License or amendment to a license					
491		L.	Documents relating to the Agreement State Program, State liaison activities, and State and local government radiological emergency response planning (Memoranda of Understanding and Interagency Agreements with Federal Agencies [e.g., Department of Transportation (DOT), DOE, EPA, Occupational Safety and Health Administration (OSHA), FEMA, and Department of Defense (DOD)])					
492		1.	Agreement State Program documents					
493	OSP		a. Agreements between NRC and States to license source, byproduct, and special nuclear material (pursuant to Sec. 274 of the Atomic Energy Act of 1954, as amended)					
494	OSP		b. Letters to States reporting NRC's reviews of the Agreement State Program, State responses, and other documents related to NRC's reviews					
495	OSP		c. "Licensing Statistics and other Data" reports					
496		2.	State liaison activities					
497	OSP		a. Memoranda of understanding					
498	OSP		b. Other State communications					
499		3.	State and local government radiological emergency response planning					
500	NRR		a. NUREG reports and supplements					
501	NRR		b. Other reports and studies					
502	NRR		c. Analyses of State radiological emergency response planning capabilities					
503		M.	Records relating to the activities of the Commissioners					
504		1.	Commission papers (If the document contains withholdable or sensitive material, a statement must be included on the front page and all applicable pages stating that the document must not be released.)					

	5 0 5	SECY	a. All SECY papers that do not contain withholdable (adjudicatory, enforcement or investigatory, attorney-client or legal work product, classified or proprietary, and personal privacy) or particularly sensitive material will be made publicly available immediately after final Commission action, unless noted otherwise below.					
506	SECY		b. Information papers that do not contain sensitive or withholdable information as noted above will be made publicly available 10 business days after issuance of the paper.					
507	SECY	2.	Staff requirements memoranda and Commission voting records on the releasable SECY papers (1 above) will be released immediately after final Commission action.					
508	SECY	3.	Commission Action Memoranda (COMs) that do not contain withholdable (adjudicatory, enforcement or investigatory, attorney-client or legal work product, classified or proprietary, and personal privacy) or particularly sensitive material will be released immediately after final Commission action.					
509	SECY	4.	Documents relating to Commission meetings that must be disclosed under the Government in the Sunshine Act					
510	SECY		a. Federal Register Sunshine Meeting Announcements					
511	SECY		b. General Counsel's certification of closed Commission meetings					
512	SECY		c. Full written explanations of closed Commission meetings, including Commissioner votes on closing of meeting					
513	SECY		d. Transcripts of closed Commission meetings (after exempted material is deleted)					
514	SECY		e. Transcripts of open Commission meetings					
515	SECY	5.	Staff requirements memorandum issued as a result of an open Commission meeting					
516	SECY	6.	Staff documents disclosed at open Commission meetings, such as briefing charts, background documents, and so forth					
517	SECY	7.	Documents, including vote sheets of individual Commissioners, released publicly at the Commissioner's direction					
518			N. Congressional and Executive Correspondence					
519	SECY	1.	Correspondence to and from congressional committees having oversight responsibilities for NRC operations (to be placed in the PDR 5 working days after the NRC reply is sent to the committee)					
520	SECY	2.	Other correspondence sent from the Commission's Chairman to members of the Congress regarding public health, safety of nuclear facilities, safeguards of nuclear facilities and materials, or export/import of nuclear commodities, and license fee (to be placed in the PDR 5 working days after material is sent to a member of Congress)					
521	SECY	3.	Other Executive correspondence and replies signed by the Chairman to be placed in the PDR 5 working days after material is sent to the recipient.					
522			O. Documents relating to the Commission Federal Advisory Committees (FACs)					

523	1*	1. Open committee minutes and transcripts					
524	1*	2. Open subcommittee and working group minutes and transcripts					
525	1*	3. Committee reports and letters (Reports which contain proprietary or classified material will not be placed in the PDR unless the proprietary or classified material is redacted from the reports.)					
526	ACRS	a. ACRS reports and letters					
527	ACNW	b. ACNW reports and letters					
528	1*	4. Consultant reports (Reports that contain proprietary or classified material will not be placed in the PDR unless the proprietary or classified material is redacted from the reports.)					
529	SECY	5. <i>Federal Register</i> notices relating to committee meetings					
530	1*	6. Meeting agenda					
531	1*	7. 1Advisory committee charters					
532	1*	8. Documents provided to committees					
533	1*	9. Documents considered by committees at meetings					
534		1* == Documents are generated from any of the following advisory committees: Advisory Committee on Reactor Safeguards (ACRS), Advisory Committee on Nuclear Waste (ACNW), Advisory Committee on Medical Uses of Isotopes, Advisory Committee for the Decontamination of Three Mile Island (Unit 2), and Licensing Support System Advisory Review Panel.					
535		P. Documents relating to the issuance of NRC regulations, regulatory guides, and generic requirements					
536	SECY	1. Documents relating to the issuance of NRC regulations					
537	SECY/ADM	a. Proposed rule and associated documents, including the regulatory analysis and the <i>Federal Register</i> notice of its issuance and availability					
538	SECY	b. Comments on the proposed rule submitted by members of the public, State, local and Federal agencies, industry, and other organizations					
539	SECY	c. Requests for written interpretation of the proposed rule					
540	SECY/ADM	d. Final rule as issued and associated documents, including the regulatory analysis and history, and <i>Federal Register</i> notice of its issuance					
541	SECY	e. Documents pertaining to public Commission meetings held at the discretion of the Commission on proposed changes to the Commission's regulations					
542	ADM/CIO	f. Title 10 of the Code of Federal Regulations (only available at the PDR)					
543		2. Documents relating to petitions for rulemaking					
544	SECY/ADM	a. Petition to the NRC to issue, amend, or rescind an NRC regulation					
545	SECY/ADM	b. <i>Federal Register</i> notice of the filing of the petition					

546	ADM	c. Correspondence with the petitioner regarding the status and content of the petition					
547	SECY	d. Comments on the petition for rulemaking submitted by members of the public, State, local, and Federal agencies, industry, and other organizations					
548		3. Documents relating to issuance of regulatory guides					
549	RES/NMSS	a. Proposed regulatory guides and associated documents, including the regulatory analysis and the <i>Federal Register</i> notice of its issuance and availability					
550	RES/NMSS	b. Comments on the proposed guide submitted by members of the public, State, local, and Federal agencies, industry, and other organizations on the proposed regulatory guide					
551	RES/NMSS	c. Summaries of public meetings held by the NRC regarding the proposed regulatory guide					
552	RES/NMSS	d. Regulatory guide (as issued)					
553		4. Documents relating to the activities of the Committee to Review Generic Requirements					
554	CRGR	a. Meeting notice transmittal memorandum without attached proposed generic requirements (attached proposed generic requirements are placed in the PDR after the NRC has considered the proposed requirements in a public forum or has decided the matter addressed in the proposed requirements)					
555	CRGR	b. Meeting minutes transmittal memorandum without attached minutes (attached meeting minutes placed in the PDR after the NRC has decided the matter addressed in the minutes)					
556		Q. NRC solicitation and contract award documents and contractor-developed reports					
557		1. Documents relating to the award of a contract					
558	ADM	a. Solicitation documents (requests for proposals) (are maintained in the PDR until solicitation closing date)					
559	ADM	b. Contract and contract modifications					
560		2. Documents received under NRC research and technical assistance contracts or interagency agreements					
561	RES/NMSS	a. Final contractor reports published in the NUREG series					
562	RES/NMSS	b. Research information letters					
563		R. Documents relating to vendor activities					
564		1. Vendor quality assurance program					
565	NRR/NMSS	a. Inspection reports by NRC					
566	NRR/NMSS	b. Notices of deviation					
567	NRR/NMSS	c. Correspondence with the vendor associated with inspection findings, including corrective actions to be taken by the vendor					
568		2. Documents relating to vendor topical reports					
569	NRR/NMSS	a. Topical reports submitted by vendors					
570	NRR/NMSS	b. Revisions and modifications to topical reports					
571	NRR/NMSS	c. Correspondence from the NRC to vendors regarding topical reports, including questions submitted by the NRC for response					
572		d. Correspondence from vendors to the NRC regarding topical reports, including answers to questions submitted by the NRC for response					
573		e. Meeting agenda, summaries, and minutes of meeting regarding the content of topical reports					

574		S. Freedom of Information Act documents					
575	CIO	1. Freedom of Information Act requests, appeals, and responses, and records disclosed in response to Freedom of Information requests relating to public health, safety, and safeguards of nuclear facilities and material					
576		T. NRC reports, publications, and directives					
577		1. NRC administrative documents					
578	ADM	a. NRC management directives and handbooks (only available at the PDR)					
579	OGC	b. NRC Staff Practice and Procedure Digest (NUREG-0386)					
580	HR	c. NRC organizational charts (NUREG-0325) (current copy maintained in the PDR)					
581	OPA	d. Press releases (only available at the PDR)					
582	AEOD	e. Plant status reports (only available at the PDR)					
583	NRR	f. Inspection manual (only available at the PDR)					
584	OE	g. Enforcement manual					
585	NRR	h. Roster of utilities					
586	ADM	i. Rules and regulations					
587	ADM	j. Title List of Documents Made Publicly Available (NUREG-0540 series)					
588	EOC	k. Weekly Information Report (version released for public dissemination)					
589	CIO	l. Media Monitor (only available at the PDR)					
590	CIO	m. Regulatory and Technical Reports (Abstract Index Journal) (NUREG-0304 series)					
591		2. Published rules, regulations, orders, branch technical positions, and regulatory guides					
592	ADM	a. NRC Rules and Regulations					
593	CIO	b. NRC issuances (NUREG-0750 series)					
594	ADM	c. Branch technical reports					
595	RES/ADM	d. NRC regulatory guides					
596		3. NRC final reports (NUREG reports)					
597	CIO	a. Draft reports on which public comments are solicited					
598	CIO	b. Comments on draft reports that are submitted by members of the public, by State, local and Federal agencies, by industry, and by other organizations					
599	CIO	c. Final published reports					
600		4. NRC reports to Congress					
601	AEOD	a. Report to Congress on Abnormal Occurrences (NUREG-0090 series)					
602	SECY	b. Annual Report on Administration of Government in the Sunshine Act					
603	CJO	c. NRC Annual Report (NUREG-1145)					
604		5. Indexes and Lists					
605	ACRS	a. ACRS index through 10/92 (only available at the PDR)					
606	OE	b. Lists of Civil Penalties (only available at the PDR)					
607	NMSS	c. Lists of General Licensees (only available at the PDR)					
608	NMSS	d. List of Docket 30, 40, and 70 licensees (only available at the PDR)					
609	NRR	e. List of Operators (only available at the PDR)					

610	CFO	U. Correspondence between the NRC and the applicant or licensee regarding license fees (to be placed in the docket file pertaining to the relevant application or license)					
611		V. Documents relating to 2.206 petitions					
612	NRR/NMSS	1. The 2.206 petition submitted to the NRC under 10 CFR 2.206					
613	SECY	2. NRC responses to 2.206 petitions					

U.S. NUCLEAR REGULATORY COMMISSION

DIRECTIVE TRANSMITTAL

TN: DT-99-29

To: NRC Management Directives Custodians and ALL EMPLOYEES

Subject: Transmittal of Management Directive 3.4, "Release of Information to the Public"

Purpose: Directive and Handbook 3.4 have been revised to reflect the distinction between information routinely distributed to the Agreement States and other more sensitive information distributed to the Agreement States under OSP responsibilities and Section M of Exhibit 1. Exhibit 2 has been added to provide a list of NRC guidance and policy documents related to sensitive information.

Office and Division of Origin: Office of the Chief Information Officer

Contact: Carol Ann Reed, 415-6874

Date Approved: September 1, 1993 (Revised: December 1, 1999)

Volume: 3 Information Management

Part: 1 Publications, Mail, and Information Disclosure

Directive: 3.4 "Release of Information to the Public"

Availability: Rules and Directives Branch
