JAN 05 1990

Mr. Ralph Stein, Associate Director
for Systems Integration and Regulations
Office of Civilian Radioactive Waste Management
U. S. Department of Energy, RW 30
Washington, D.C. 20545

Dear Mr. Stein:

The purpose of this letter is to transmit the summary for the October 31 and November 1-2, 1989 NRC-DOE Technical Exchange on Tectonics. NRC and DOE discussed the range of tectonic models of Yucca Mountain compatible with the currently existing data base and then visited a number of field localities to see some of the evidence bearing upon alternative tectonic models of the Yucca Mountain site. Representatives of the State of Nevada attended this meeting, and a representative from the State introduced information based upon recent field work relating to Yucca Mountain tectonics.

Should you have any questions on the enclosure, please contact King Stablein (FTS 492-0446) of my staff.

Sincerely,

[Signature]

John J. Linehan, Director
Repository Licensing and Quality
Assurance Project Directorate
Division of High-Level Waste Management
