Mr. Ralph Stein, Associate Director
for Systems Integration and Regulations
Office of Civilian Radioactive Waste Management
U.S. Department of Energy, RW-30
Washington, D.C. 20585

Dear Mr. Stein:

The Nevada Bureau of Mines and Geology was commissioned to prepare a report in support of the U.S. Department of Energy's (DOE) request of the U.S Bureau of Land Management (BLM) for administrative land withdrawal of that portion of BLM lands falling within the Yucca Mountain site. The resulting report, dated December 27, 1989, is entitled "Mineral Evaluation of the Yucca Mountain Addition, Nye County, Nevada". Photocopies of this report have been made available to the public by the State of Nevada as Nevada Bureau of Mines and Geology publication Open File Report 90-4.

The purpose of this letter is to request that DOE provide the U.S Nuclear Regulatory Commission (NRC) with three copies of the subject report, including actual photographs (not photocopies) of the report figures and actual overlays (transparencies) of appropriate figures.

If you have any questions regarding this request, please contact King Stablein (FTS 492-0446) of my staff.

Sincerely,

15/
