TRANSMITTAL OF DOCUMENTS REQUESTED BY ON-SITE REPRESENTATIVE

Following the Nuclear Waste Technical Review Board Environment and Public Health Panel Meeting in Las Vegas, Nevada, on April 24 through April 26, 1990, Paul Prestholt, U.S. Nuclear Regulatory Commission On-Site Representative for the Yucca Mountain Project Office, requested documents that were referenced by U.S. Department of Energy speakers during the course of the meeting. A list of these references is enclosed. Furthermore, Paul requested that the subject documents be transmitted directly to your office. In accordance with this request, I am transmitting the documents under separate cover. In cases where the documents are controlled, uncontrolled copies are provided.

The Nevada Nuclear Waste Storage Investigations "Radiological and Environmental Monitoring Sampler Locations" is not being sent at this time. This document consists primarily of color photographs of the samplers and is very expensive to reproduce. The "Environmental Monitoring Program Summary for Calendar Year 1988," which was also referenced at the April 24 meeting, is still in preparation.

If you have any questions regarding this transmittal, please contact Ardyth M. Simmons of my staff at (702) 794-7998 or FTS 544-7998.

Carl P. Gertz, Project Manager
Yucca Mountain Project Office
