RE: Controlling the Disposition of Solid  
Materials - (68FR 40:9595-9602)

I have just learned of the opportunity to submit public comments on this very important matter.

I urge the NRC to extend the comment period for 90 days beyond the date announced.

In addition, the NRC must hold public hearings on a regional basis across the country. A 2-day meeting in Washington D.C. is inadequate to deal with this crucial matter.
