

6
Form 065 accompanies Document Control Process
modified to add another block w/ sensitivity
review

Incorporate into document review (existing)
Already going thru document review

Here's what you or feel free to let go - ^{content}
given this criteria, and then any doc that may
cross the line?

Define "sensitive" material

Must delete from ADAMS & web

Dick Rosero (Air Security) can come up with a definition
of sensitive

Definition should embrace the criteria - ^{characterize content} definition should
include examples

Sensitive is site specific - attach a name to it

For instance, FSAR submittals can tell licensees not to
submit drawings.

Define it to licensees, appropriately marked

Create two versions when appropriate

Just creating an additional category

B-III

- Find a way to enforce it in a regulatory context
- Determination needs to be made by specialists consistently

i.e. Many that does a proprietary review

EMITTING THE STAFF

Most of this ones will be on licenses, similar to proprietary info.

DCS are striped prop. Vast majority are appropriate
Occasionally, PM will notify OCO of oversight.

Rosare will define sensitive Homeland Security Info
Gail will review Res Guides

Generic Communications reviewed by NRR/NMSS
Offices will choose priority Beckley/Cathow

Our vehicle is going to their
approval

#1 will be given more weight
will then look at #2

break 6) + this day forward

In the meantime staff should make judgments
