RE: SS&D No. NH-1184-D-101-S

Dear Ms. Kime:

Enclosed is a copy of a Sealed Sources and Devices Safety Evaluation for a Device (Registration Certificate No. NH-1184-D-101-S), specifically, a static eliminator containing americium-241 in a laser system, manufactured and distributed by BAE SYSTEMS Information and Electronics Systems Integration, Incorporated. This certificate was signed and issued today, May 8, 2003. The State of New Hampshire requests that this safety evaluation certificate be included in the national Registry of Radioactive Sealed Sources and Devices, maintained by the U.S. Nuclear Regulatory Commission.

Should you have any questions regarding this certificate, please do not hesitate to contact us.

Sincerely

A handwritten signature in dark ink, appearing to read "Dennis P. O'Dowd".

Dennis P. O'Dowd, Supervisor
Radioactive Materials Section
Bureau of Radiological Health
