UNCONTROLLED

The purpose of this QAPPCN is to make a minor change to the Quality Assurance Program Plan that is in conflict with DOE's requirements document, QARD DOE/RW-0214, and to be consistent with current implementing procedures.

I-6	3.1.1	Delete paragraph titled "Allegations of Inadequate Quality" in its entirety and replace with the following paragraph.
-----	-------	---

"Allegations of inadequate quality that have not been resolved through normal channels or that require anonymity, may be reported via the Office of Civilian Radioactive Waste Management Quality Concerns Program."

Add new paragraph 3.1.2

I-6	NEW PARA. 3.1.2	RESOLUTION OF QUALITY DISPUTES
-----	--------------------	--------------------------------

"Disputes involving quality issues arising at any given organizational level within the REECO/YMP organization shall be resolved in accordance with a defined programatic reporting system. This system shall provide direction for the documentation and resolution of disputes and shall include a process for elevation to successively higher levels of management until resolution is reached."
