SUBJECT: 1991 QUALITY PROGRAM STATUS REPORT

Enclosed is a copy of the "Los Alamos National Laboratory Yucca Mountain Site Characterization Project 1991 Quality Program Status Report." We plan to use this report to establish a baseline for our Yucca Mountain Project QA activities.

You may wish to pay particular attention to the following sections of this report:

- Summary, p.51
- Program Activities, pp. 2-28
- Trend Analysis, pp. 29-50
- Deficiencies, pp. 37-38

We are quite proud of the progress our Quality Program has made in 1991, and we believe that 1992 will bring additional improvements. Please contact me with questions or suggestions concerning our Quality Program.

Ken - thought you might enjoy a
copy of this. It includes some
interesting trends. Cheers,
Bob
