RE: ILLEGAL DISCRIMINATION, ILLEGAL HOSTILE WORK ENVIRONMENT, ILLEGAL DISCHARGE, ILLEGAL BLACKLISTING, ILLEGAL DESTRUCTION OF EVIDENCE, ILLEGAL CONSPIRACY TO DESTROY EVIDENCE, AND ILLEGAL CONSPIRACY TO FABRICATE EVIDENCE TO PRESENT IN A FEDERAL COURT OF LAW

Dear Mr. Immelt:

This serves as a follow-up to our initial letter of September 28th, 2002 directed to your attention regarding the circumstances surrounding the undersigned's illegal employment termination and events as described above. In our prior correspondence, you were specifically requested to,

" . . . take immediate actions to cause an internal GE company investigation into the significant environmental safety and health concerns . . . raised to GE management regarding the GEMEX FSAR . . . and Laser DYE disposal and handling at the Jupiter, Florida facility. . . "

We are **gravely** concerned that you have not responded to date regarding the aforementioned request for an investigation. As you are aware, the undersigned has filed **FEDERAL DISCRIMINATION CHARGES** under Title VII of the Equal Employment Opportunity Commission against **"YOU" "Jeff Immelt"** personally as well as the General Electric Company and several other GE employees. As you are aware, the undersigned is currently engaged in a whistleblower action scheduled for hearing in a Federal court of law on January 6th, 2002 regarding the circumstances surrounding the illegal and unlawful termination of the undersigned's employment from the GE Medical Systems facility located in Jupiter, Florida. The undersigned continues his investigation into this matter and has apparently discovered **strong** evidence that one or more GE employees conspired with one or more Adecco Technical employees to fabricate and/or to destroy evidence in an attempt to convince the Department of Labor ("DOL") Administrative Law Judge ("ALJ") that GE and/or Adecco Technical did not violate the law when the undersigned's employment ended at the GE Medical Systems facility almost immediately after the undersigned raised substantial safety and health concerns to senior managers at the GE facility.

NATIONAL ENVIRONMENTAL PROTECTION CENTER

Please be advised that should GE attorneys or Adecco Technical attorneys attempt to present knowingly false testimony or evidence at the January 2003 Federal DOL hearing, the undersigned will hold "**you**" "**Jeff Immelt**" personally liable and responsible for those actions. In addition, the undersigned **will** engage the U.S. Department of Justice and prosecute any and all individuals who may engage in such activity.

The National Environmental Protection Center ("NEPC") is very concerned about your lack of cooperation to cause an investigation into the above-stated matters. As the Chief Executive Officer ("CEO"), NEPC would expect "you" to take a leadership role to aggressively investigate all the circumstances surrounding the above-stated issues. NEPC is exceptionally concerned that a "**culture**" exists within the GE management structure and extends to the nuclear power facilities that GE is licensed to operate and/or to manage under license by the U.S. Nuclear Regulatory Commission ("NRC"). Therefore, NEPC also requests that "you" "**Jeff Immelt**" cause an immediate investigation of all GE facilities in which GE holds a NRC license to ensure that those facilities provide a workplace which allows employees to **freely** raise safety and health concerns to any GE manager, or to any GE manager at any level of the GE chain-of-command up to and including the GE CEO, or to the NRC, or to the media, or to anyone in order that the safety and health concerns may be timely investigated and resolved.

By copy of this correspondence to Julio Arrieta, CEO for Adecco, Inc., **Julio Arrieta** is hereby requested to take similar actions as delineated above with respect to the Adecco Technical, and Adecco North America, and Adecco, Inc. affiliations. Notably, attorneys representing Adecco Technical in the instant action currently before the DOL, have made representations to the court that Adecco Technical employee Greg Bradley quit the company as of November 11th, and thus is "**outside the jurisdiction**" of the court to compel his appearance at the January 6th, Federal court hearing. NEPC is gravely concerned about the circumstances surrounding Bradley's sudden departure from Adecco Technical's employment and his apparent attempt to avoid prosecution in a Federal court of law. Therefore, NEPC further requests that **Julio Arrieta** immediately cause an investigation into the circumstances surrounding Bradley's departure from employment at Adecco Technical. Although the attorneys representing Adecco Technical made certain and specific assertions to the court regarding Bradley, NEPC finds those explanations to be deficient and unpersuasive and lacking in substance. Thus, NEPC requests that **Julio Arrieta** also cause an investigation of the interaction that the Adecco Technical attorneys had with Bradley prior to and subsequent to his departure from Adecco Technical.

NEPC respectfully requests your "**Jeff Immelt**" written response and that of **Julio Arrieta** within 15-days receipt hereof.

Best regards,

Thomas Saporito
Executive Director
