Mr. Joseph J. Holonich, Director
Repository Licensing & Quality Assurance
Project Directorate
Division of High-Level Waste Management
Office of Nuclear Material Safety
and Safeguards
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Holonich:

On March 11, 1994, the U.S. Department of Energy reorganized the Office of Geologic Disposal and the Yucca Mountain Project Office. The enclosed organization chart identified the change and the reassignment of Yucca Mountain Project Office staff.

In addition to personnel and functional changes, the name of the project has been changed to the Yucca Mountain Site Characterization Office.

Functional reorganization will be accomplished with a phased approach, contingent upon revision of quality assurance implementing documents and completion of associated training. Procedure revisions will be completed in accordance with a transition plan.

Yucca Mountain Site Characterization Office personnel will continue to function in the capacities defined in Quality Assurance Procedure (QAP) 1.1, Revision 0, until revision of implementing documents for specific tasks is complete.

If you have any questions, please contact Sheila Long at (202) 586-1447.

Sincerely,

Dwight E. Shelor
Associate Director
Office of Systems and Compliance
Office of Civilian Radioactive
Waste Management
